Life Is Simply A Game Steven Redhead

2016-02-24 Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all

participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever

potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being

lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exert, the persistence of that effort, all comes to

determine whether and to what degree what you want is what you actually get. In life you may win or lose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

**Overcoming Me** Jewel Adams 2015-01-01 God loves us and has a plan for us. Every human being is a part in that plan. There is opposition in

all things, and overcoming trials is one of the most important lessons we can learn. It took me a long time to figure this out and I am grateful for what I have learned. But those lessons did not come without a price. In this little book, I will humbly share some of what I have learned.

*The Beardude Story* Allen Piche 2016-03-31 It's been called one of B.C.'s most bizarre drug cases in recent memory. A story with a cast of characters including an oddball hippy, a pot-bellied pig, an overly friendly raccoon and twenty-four black bears. Oh, and a thousand pot plants, apparently guarded by the bears. The bust took

place in August of 2010 near the Village of Christina Lake, British Columbia and the story travelled to all parts of the world, including the United States, Denmark, England, India and Russia, where a news anchor lady could not stop laughing as she read the story. The New York Post declared, "Don't Smokey near this bear." Today, Allen Piche, aka 'The Beardude', announced the release of his book, The Beardude Story, which chronicles his side of this strange tale.

**A Daughter of the Snows** Jack London  
2017-06-30 A Daughter of the Snows (1902) is

Jack London's first novel. Set in the Yukon, it tells the story of Frona Welse, "a Stanford graduate and physical Valkyrie" who takes to the trail after upsetting her wealthy father's community by her forthright manner and befriending the town's prostitute. She is also torn between love for two suitors: Gregory St Vincent, a local man who turns out to be cowardly and treacherous; and Vance Corliss, a Yale-trained mining engineer. The novel is noteworthy for its strong and self-reliant heroine, one of many who would people his fiction. Her name echoes that of his mother, Flora Wellman, though her inspiration has also

been said to include London's friend Anna Strunsky. Modern commentators have criticized the novel for its approval of the main character's view that Anglo-Saxons are racially superior. The novel was commissioned by publisher S. S. McClure, who provided London a \$125 a month stipend to write it.

### **Max and the Magic Boy** Jack Cain 2012-02-29

Max is the smartest boy in his class. He learns so quickly that he is frequently bored to death. One day a weird creature appears next to him in school. It is Magic Boy. MB comes from Somewhere Else. He is the strangest looking

person, boy or adult, Max has ever seen. The boy has no shoes on and has purple toes and purple fingers, are all twice as long as Max's. His hair is bright orange and is standing straight up on top. He looks cheerful and has two large front teeth. Like Bugs Bunny. MB is dressed rather strangely, which is OK since he is a very strange boy to start with. MB has no shirt, just shorts with a sort of strap that goes across his chest. MB is somewhat hairy all over his body which is kind of odd since he appears to be about 11 years old. Max and his friends go on strange adventures involving giant pigeons, kids who are surgeons;

kids who are lawyers and judges; and kids riding in a rodeo. MB needs Max to help him to bring something from Earth to his Home. But wait until you read the Prologue!

**The House That Jack Built** James Colman

2016-09-01 This is the story of how an ordinary bloke from the bush became the key figure in a movement that would change the shape of our cities and bring about lasting political and legal reform. This is the story of the house that Jack Munday built. Without the green bans movement of the 1970s, Sydney and many other cities would look very different. Pulling together an unlikely alliance of environmentalists and union players earned Jack Munday a reputation as both the 'best-known unionist and best-known conservationist in Australia'. Under his leadership,

the movement fought against the slash-and-burn philosophy that almost saw The Rocks fitted out with high-rise buildings, a highway through the centre of Glebe and total development of Centennial Park. In this long-awaited book James Colman reflects on Jack's remarkable life and his ongoing legacy. Munday overturned the bulldozer mentality of the 1960s and 1970s and helped to persuade Australians everywhere to cherish and protect the heritage of special buildings, places and sites.

**Do and Dare** Horatio Alger, Jr 2021-02-21 Herbert left the house of Squire Walsingham in a sober frame of mind. He saw clearly that his mother

would not long remain in office, and without her official income they would find it hard to get along. To be sure, she received a pension of eight dollars a month, in consideration of her husband's services in the war, but eight dollars would not go far towards supporting their family, small as it was. There were other means of earning a living, to be sure, but Wayneboro was an agricultural town mainly, and unless he hired out on a farm there seemed no way open to him, while the little sewing his mother might be able to procure would probably pay her less than a dollar a week. The blow fell sooner than he expected. In the course

of the next week Mrs. Carr was notified that Ebenezer Graham had been appointed her successor, and she was directed to turn over the papers and property of the office to him. She received the official notification by the afternoon mail, and in the evening she was favored by a call from her successor. Ebenezer Graham was a small man, with insignificant, mean-looking features, including a pair of weazel-like eyes and a turn-up nose. It did not require a skillful physiognomist to read his character in his face. Meanness was stamped upon it in unmistakable characters. "Good-evening, Mr. Graham," said the

widow, gravely. "Good-evening, ma'am," said the storekeeper. "I've called to see you, Mrs. Carr, about the postoffice, I presume you have heard-""I have heard that you are to be my successor.""Just so. As long as your husband was alive, I didn't want to step into his shoes.""But you are willing to step into mine," said Mrs. Carr, smiling faintly. "Just so-that is, the gov'ment appear to think a man ought to be in charge of so responsible a position.""I shall be glad if you manage the office better than I have done.""You see, ma'am, it stands to reason that a man is better fitted for business than a woman,"

said Ebenezer Graham, in a smooth tone for he wanted to get over this rather awkward business as easily as possible. "Women, you know, was made to adorn the domestic circles, et cetera.

**Echoes in the Storm** Max Henry 2017-09-12 One week is all we were supposed to share. One week as strangers. All the things you did differently irked me. I thought it meant we couldn't get along, that there was no chance we'd work out. But when it came time for me to leave, you know what I figured out? You were my echo. My call back. And damn it if I didn't find home in the end.

*Total Recovery* Dr Gary Kaplan 2014-09-11 Dr.

Gary Kaplan's Total Recovery is a radical rethink of how we get sick, why we stay sick and how we can recover. Millions of us suffer from chronic pain. It can return at the slightest provocation and its cause is often a mystery to doctors. In Total Recovery, Dr. Gary Kaplan argues that we've been thinking about disease all wrong. Through cutting-edge research and dramatic patient stories, the book reveals how chronic physical and emotional pain are linked. Dr. Kaplan's groundbreaking discovery that disease is an accumulation of traumas over a lifetime - every injury, infection and emotional blow - suggests

that current treatments for chronic pain and depression are ineffective. By focusing on long-term causes as well as symptoms, Dr. Kaplan has found hope for those locked into a lifetime of pain and suffering. His unified theory has created a new pathway to total recovery.

*LIFELINE* Catherine McGuire 2017-03-31 It had seemed so simple, even fun, when they explained it: New York needed non-satellite-based relay towers. Commco sent me to find towns along the needed pathway, to offer to restore some of the boons of civilization in return for an agreement to build, power and guard the towers. After all, it had only been fifty years. I would never have believed that the countryside would have turned barbaric so fast. Thus begins Martin Barrister's journey through an unfamiliar landscape, where

his training and skills are of little help, and only quick wits and creativity will allow him to survive. When his job turns out to be a ruse, and he becomes bait in a dispute he can barely fathom, Martin discovers what loyalty is worth. And what civilization is - and isn't - comprised of.
