Raising a Moody Child Mary A. Fristad 2012-03-23 Every day can be an ordeal for families struggling with the difficult, moody, "impossible" behavior that

may point to childhood depression or bipolar disorder. Effective help for kids does exist, but it often requires a customized combination of medication, therapy, coping skills, and

support. From esteemed clinician and researcher Dr. Mary Fristad and fellow treatment expert Dr. Jill Goldberg Arnold, this indispensable book explains how treatment works and what additional steps parents can take at home to help children with mood disorders--and the family as a whole--improve the quality of their lives. Explained are why symptoms look so different (and can be so much harder to manage) in children and teens than in adults, how to find the right doctor or therapist, and how to help kids develop their own "coping toolkits." Bursting with practical tools, FAQs, and examples, the book covers everything from dealing with medical crises to resolving school problems, sibling conflicts, and marital stress.

Stay-at-Home-Parent's Survival Guide

Christina Tinglof 2000-02-01 Each year thousands of parents, yearning for more time with their children, put away their briefcases and laptops in favor of baby gear and Legos. Yet being home with the kids all day isn't easy! Some of us need a little extra help with the transition. The Stay-at-Home Parent Survival Guide not only helps Moms and Dads survive the occasional stressful day--something every parent experiences now and then--but also inspires them with new ideas for indoor and outdoor activities, great places to take the kids, starting a playgroup, building a support system, and keeping connected in the adult community. Even if you're a parenting pro, The Stay-at-Home Parent Survival Guide is a useful resource that offers unique ways to handle the day-to-day tasks of stay-at-home

parenting, such as helpful tips for finishing the housework with the kids underfoot, meal and naptime strategies that work, skills for building a stronger marriage, managing your time effectively, beating the stay-at-home blues, and balancing household finances on a single income. In addition to the expertise of author Christina Baglivi Tinglof and other stay-at-home parents, The Survival Guide includes valuable insights from a variety of experts, including: Kathy Kristof, syndicated columnist, on how to set and reach financial goals Arlene Rossen Cardozo, author of Sequencing, on the evolution of the stay-at-home mom Dr. Sylvia Rimm, "Today" show parenting expert, on positive discipline Dr. Brian Ray, president of the National Home Education Research Institute, on homeschooling Elaine St. James, author of Simplify Your Life with Kids,

Do I Look Like an ATM?

Sabrina Lamb 2013-03-01 Youth financial education is an urgent issue, and author Sabrina Lamb believes that African American parents first must reeducate themselves about finances to make sure the next generation does not fall into the spending trap that can be a family legacy. The lack of a healthy financial education has generational impact, causing families to be financially vulnerable, squander financial resources, and fail at wealth accumulation. With step-by-step advice and exercises for parents and young people, *Do I Look Like an ATM?* sets out to establish

new financial behavior so children will avoid the personal economic problems that have plagued the culture. The book guides parents through self-examination of their financial habits. By performing the exercises in this book and having candid discussions, parents can, together with their children, become engaged citizens in the world of money. With new financial traditions and a better understanding of money and its meaning, the next generation will realize the true power of wealth and use their money wisely. *Eating Expectantly* Bridget Swinney 2000-08 Provides information on proper nutrition, from conception through the postnatal period, and includes recipes and menus for each trimester.

It neither sugar coats nor overstates the challenges, but presents a straightforward picture of what parents can expect from their twins at every stage, from pregnancy through the teen years. Tinglof mingles thorough research with personal anecdotes to present a comprehensive resource for parents of twins. With updated information about the medical issues of multiple pregnancy and new insights about the psychology of the twin relationship, the new edition

is recommended reading for all prospective parents of twins" -Pamela Fierro, Guide to Twins & Multiples at About.com

Anorexia And Bulimia: A Parent's Guide To Recognising Eating Disorders and Taking

Control Dee Dawson 2012-05-31 Anorexia nervosa is a condition in which sufferers diet continually and starve themselves. They may also use laxatives, vomiting or exercise excessively in order to control weight. Anorexia usually occurs in young women, starting in their teens, and it is estimated that about 2 per cent of all young women suffer from it. Bulimia is an eating disorder which is also on the rise among young people. They use the binge/purge cycle to extreme in their attempts to control their weight. This is a comprehensive, positive and practical guide to detecting the early signs of eating disorders and then curing them. Written with years of

experience and expertise, it encourages parents to understand the illness, overcome their fears and take control of the situation, whether that means enforcing a strict meal plan or taking the decision to seek professional help. The book includes early signs to look out for; the possible effects of the illness, both physical and psychological; the treatments available and, most importantly, the plan, which helps parents to take positive action and really make a difference to their child's life.

A Parent's Guide to Raising Grieving Children

Phyllis R. Silverman

2009-04-02 When children lose someone they love, they lose part of their very identity. Life, as they knew it, will never be quite the same. The world that once felt dependable and safe may suddenly seem a frightening, uncertain place, where nobody understands what they're feeling. In this deeply sympathetic book,

Phyllis R. Silverman and Madelyn Kelly offer wise guidance on virtually every aspect of childhood loss, from living with someone who's dying to preparing the funeral; from explaining death to a two year old to managing the moods of a grieving teenager; from dealing with people who don't understand to learning how and where to get help from friends, therapists, and bereavement groups; from developing a new sense of self to continuing a relationship with the person who died. Throughout, the authors advocate an open, honest approach, suggesting that our instinctive desire to "protect" children from the reality of death may be more harmful than helpful. "Children want you to acknowledge what is happening, to help them understand it," the authors suggest. "In this way, they learn to trust their own ability to make sense out of what they see." Drawing on

groundbreaking research into what bereaved children are really experiencing, and quoting real conversations with parents and children who have walked that road, the book allows readers to see what others have learned from mourning and surviving the death of a loved one. In a culture where grief is so often invisible and misunderstood, the wisdom derived from such first-hand experience is invaluable. Filled with compassion and common sense, *A Parent's Guide to Raising Grieving Children: Rebuilding Your Family after the Loss of a Loved One* offers readers a wealth of solace and sound advice, and even--where one might least expect it--a measure of hope.

Parenting School-Age Twins and Multiples

Christina Tinglof 2007-01-10
Real-world advice for when your twins' and multiples' concerns go beyond "Should they dress alike?" Should your twins be placed in the same homeroom at school? Does one of your kids have a harder time making friends than the other? How healthy is competition among your triplets?
Christina Baglivi Tinglof, author of Double Duty and a mother of twins, expertly guides you through your kids' school years, from the first days of kindergarten to

the always drama-filled years of high school. Drawing from the latest cutting-edge research and hundreds of parent-tested tips, Tinglof offers proven advice to: Encourage individuality Foster positive sibling relationships Discipline effectively Deal with one child developing faster than the other Manage common speech and reading difficulties

The Parent's Guide to Birdnesting Ann Gold Buscho 2020-09-01 Take coparenting to the next level and provide a stable environment for your children as you and your spouse begin tackling your separation or divorce. For parents who are separating and want to put their children first, birdnesting could be the interim custody solution you've been looking for. Instead of the children splitting their time being shuttled between mom and dad's separate homes, birdnesting allows the children to stay in the "nest"

and instead, requires mom and dad to swap, allowing each parent to stay elsewhere when not with the children. Initially popularized by celebrities, this method of coparenting is now becoming more mainstream as a way to help ease children into a new family dynamic. Birdnesting takes work and commitment but with Dr. Ann Gold Buscho's guidance, you'll learn everything you need to know about this revolutionary method. In *The Parent's Guide to Birdnesting*, you will discover the pros and cons, the financial and interpersonal considerations, and if it's the right decision for you and your family.

Sweet Potato Queens' Guide to Raising Children for Fun and Profit Jill

Conner Browne 2008-01-01 When does $1 + 1 = 3$ (or more)? When you've got a baby on the way. Part of that new math, says #1 New York Times bestselling

author Jill Conner Browne -- whom USA Today calls "just plain funny" -- includes the addition of an outsize sense of humor to balance the equation of your growing family. The Sweet Potato Queens' Guide to Raising Children for Fun and Profit is a hilarious (though not scientifically tested) wink at the time-honored mysteries of parenting, because anybody who has ever had a kid or has ever known one knows that the experience is neither fun nor profitable -- so you might as well laugh! As each generation begins its hopeful, happy, and, yes, sometimes harrowing journey as Parent and Child, together they spawn a new body of "knowledge," the nuances of which will elude the Experts every time. Here are stories of the things we do for Mother Love -- or, the most incredibly full-time volunteer job ever -- and tips guaranteed not to be found in any other parenting guide. How to talk to a pregnant woman How the

diamonds on delivery policy can speed up the labor nature intended Why a good mother is always adept at subterfuge The list of things you wouldn't think you would have to tell kids not to do Why mothers of sons can never retire Why, for parents, it's just a short drive to the poorhouse The Sweet Potato Queens' Guide to Raising Children for Fun and Profit will have everyone who's ever been a parent -- or has ever thought of becoming one -- or has ever been a child -- or is still one -- giggling and grinning (no small feat) through those childbearing years...and beyond.

Motivate Your Child Scott

Turansky 2015-02-03

We need a parenting revolution! Most parenting approaches end up encouraging children to ask the wrong questions about life: What's in it for me? Are you going to pay me for that? What's the minimum I need to do to get by? But God's Word gives us a better way to parent, one that builds strong internal motivation in children. When parents change the way they parent, kids change the way they live. This practical book explores a theology of internal motivation and then gives parents real-life solutions to equip their kids for life. You'll learn . . . •

how to parent in ways that build internal motivation so that kids don't have to rely on you to get things done. • the four promptings of the conscience and how to coordinate your parenting to take advantage of them. • ways to energize your spiritual training with fun and creativity. • how to help children respond to mistakes instead of blaming, defending, or justifying. The greatest gift you can give your child is strong moral and spiritual development—this book shows you how. Every chapter includes practical examples of families applying the Bible to their current issues. Join the revolution!

The Golden Cord Kristin A. Vargas 2022-08-10 The Golden Cord takes readers on a journey through Saint John Chrysostom's teaching on the Christian family. Coupling his spiritual

wisdom with insights from some of the greatest modern thinkers, The Golden Cord invites thoughtful parents and teachers to delve deeper into the treasury of their ancient Christian heritage. Faith, tradition, and contemporary thought do not always have to be at odds. The author explores how current and ancient sources can agree on the subject of how the Christian family can grow together in virtue and stand firm against the powerful antichristian forces that move through secular society. This exploration focuses on three key elements of St. John's pedagogy for the family: spiritual exercise, imitation, and story-telling. *Stay-at-Home-Parent's Survival Guide* Christina Baglivi Tinglof 2000-02-22 Each year thousands of parents, yearning for more time with their children, put away their briefcases and laptops in favor of baby gear

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts

parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a

variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
