Congressional Record United States. Congress 1952 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Multicultural America Carlos E. Cortés 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America. This distinction is important considering the following NPR report by Eyder Peralta: "Based on the first national numbers released by the Census Bureau, the AP reports that minorities account for 90 percent of the total U.S. growth since 2000, due to immigration and higher birth rates for Latinos." According to John Logan, a Brown University sociologist who has analyzed most of the census figures,

"The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations." Both non-Hispanic whites and blacks are getting older as a group. "These groups are tending to fade out," he added. Another demographer, William H. Frey with the Brookings Institution, told The Washington Post that this has been a pivotal decade. "We're pivoting from a white-black-dominated American population to one that is multiracial and multicultural." Multicultural America: A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today. Pedagogical elements include an introduction, a thematic reader's guide, a chronology of multicultural milestones, a glossary, a resource guide to key books, journals, and Internet sites, and an appendix of 2010 U.S. Census Data. Finally, the electronic version will be the only reference work on this topic to

augment written entries with multimedia for today's students, with 100 videos (with transcripts) from Getty Images and Video Vault, the Agence France Press, and Sky News, as reviewed by the media librarian of the Rutgers University Libraries, working in concert with the title's editors.

Immigration Detention in the European Union Izabella Majcher 2020-03-04

This book offers a unique comparative assessment of the evolution of immigration detention systems in European Union member states since the onset of the "refugee crisis." By applying an analytical framework premised on international human rights law in assessing domestic detention regimes, the book reveals the extent to which EU legislation has led to the adoption of laws and practices that may disregard fundamental rights and standards. While emphasizing policies and laws adopted in response to the "refugee crisis," the volume also shows how these policies have evolved—and in many cases grown more restrictive—even as the "crisis" has begun to recede from the borders of many European countries. To sharpen awareness of contrasting developments across the region, the book's country chapters are organised into geographic sections that reveal how variations in migration pressures have in some cases resulted in contrasting detention practices even as the EU directives have sought to harmonise immigration laws. A critical focus of the book are the evolving domestic norms related to grounds for detention, length of detention, non-custodial "alternatives to detention," the treatment of children, and conditions of detention. With its systematic and

comparative assessment of immigration detention regimes across the EU, the book will be helpful for both academics and practitioners who seek a comprehensive guide to the evolution of one of today's more important human rights dilemmas—states' efforts to control global migration.
