**Interactions One** Michael Berman  
2002-11-01 The three books in the Interactions Integrated Skills Program provide an in-depth coverage of the four major language skills: reading, writing, listening, and speaking. In addition, a strong grammar component acts as a foundation for students to rely on while mastering their new skills. The content and themes found in the new Integrated Skills Editions are based on materials from the highly successful Interactions series. Like its parent series, the Integrated Skills Program places a great emphasis on the development of skills and strategies in all language areas. All of the reading selections found in the Interactions Integrated Skills Editions, are fresh and new, with a wide variety of formats and themes. Each selection is accompanied by a host of reading strategies and skill-building practice activities including guessing meaning from context, reading for main ideas and details, skimming, scanning, and so on. The writing component features a step-by-step approach to process writing and rewriting in a variety of different genres. Grammar is always presented in the context of the chapter theme, and each grammar topic is accompanied by a number of communicative practice activities. Finally, the listening/speaking section features detailed practice with specific listening strategies and includes a variety of engaging speaking activities based on the

chapter theme. The Interactions Integrated Skills Program also features an exciting video component, with practice activities featured in the opening sections of each chapter.

*From Martyrs to Murderers* Robert L.

Dahlgren 2017-04-13 In *From Martyrs to Murderers*, the author explores the connections between the dark, unflattering representations of public schools, teachers and teaching in popular Hollywood films and the conservative attacks on public education that have culminated in a generation of neo-liberal standards reform measures. The author's analysis is based on a survey of 60 movies that feature significant interactions between public school teachers and their students. This study employed a textual analysis method involving viewing the films alongside original script material, which reveals that the narratives involving public schools during the late 20th century and early 21st century are distinct from those

involving other types of schools or eras. Rather than the romantic figures of earlier portraits, such as Eve Arden's beloved Our Miss Brooks in the 1940s and 1950s radio and television serial, these teachers are consistently portrayed as negative archetypes, thus providing a rationale for the school reform agenda of the 1980s. The sheer repetition of these damaging images in Hollywood products of the period made the American public more susceptible to the deceptive arguments outlined in *A Nation at Risk*, the seminal 1983 report that provided the blueprint for the standards reform movement that has dominated education policy for the past generation. This work thus develops upon the critical perspectives of educational historians and social studies educators who have probed this turning point in the history of American schooling. It also offers an alternative means of viewing the reality of life in the nation's public institutions.

**Academic Voices** Upasana Gitanjali Singh  
 2022-04-01 Academia's Digital Voice: A Conversation on 21st Century Higher Education provides critical information on an area that needs particular attention given the rapid introduction and immersion into digital technologies that took place during the pandemic, including quality assurance and assessment. Sections discuss the rapid changes called into question as student mobility, pedagogical readiness of academics, technological readiness of institutions, student readiness to adopt online learning, the value of higher education, the value of distance learning, and the changing role of administration and faculty were thrust upon institutions. The unprecedented speed of international lockdowns caused by the pandemic necessitated HEIs to make rapid changes in both teaching and assessment approaches. The quality of these and sacrosanctity of the academic voice has long been the central tenet of higher education. While history is replete with challenges to this, the current, rapid shift to online education may represent the greatest threat and opportunity so far. Focuses on the academic voice in HEI Presents an authentic message and mode for the new world we live in post COVID Includes a section on academic predictions for higher education institutions
