Eventually, you will definitely discover a extra experience and carrying out by spending more cash. nevertheless when? attain you take on that you require to get those every needs with having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more regarding the globe, experience, some places, like history, amusement, and a lot more?

It is your certainly own mature to accomplishment reviewing habit. along with guides you could enjoy now is **Introduction To America** below.

*An Introduction to Native North America -- Pearson eText*  
2015-08-26 An Introduction to Native North America provides a basic introduction to the native peoples of North America, including both the United States and Canada. It covers the history of research, basic prehistory, the European invasion and the impact of

Europeans on Native cultures. Additionally, much of the book is written from the perspective of the ethnographic present, and the various cultures are described as they were at the specific times noted in the text.

**An Introduction to American Archaeology: South America**

Gordon Randolph Willey 1966  
America, Amerikkka Rosemary

Radford Ruether 2014-12-05  
America views itself as a nation inhabiting a "promised land" and enjoying a favoured relation with God. This view of unique election has been coupled with racial exclusivism and the marginalization of non-white citizens. America, Amerikkka traces the historical and

ideological patterns behind America's sense of itself. In its examination of America's "chosenness", the book ranges across the doctrine of the "rights of man" in the 18th and 19th centuries, the role of America in the twentieth century as "global policeman", and the enforcement of neo-colonial relations over the "third world". The volume argues for a vision of global relations between peoples based on justice and mutuality, rather than hegemonic dominance.

*American History: A Very Short Introduction* Paul S. Boyer

2012-08-16 In a miracle of concision, Paul S. Boyer provides a wide-ranging and

Downloaded from

guest

authoritative history of America, capturing in a compact space the full story of our nation. Ranging from the earliest Native American settlers to the presidency of Barack Obama, this Very Short Introduction offers an illuminating account of politics, diplomacy, and war as well as the full spectrum of social, cultural, and scientific developments that shaped our country. Here is a masterful picture of Americas achievements and failures, large-scale socio-historical forces, and pivotal events. Boyer sheds light on the colonial era, the Revolution and the birth of the new nation; slavery and the Civil War;

Reconstruction and the Gilded Age; the Progressive era, the Roaring Twenties and the Great Depression; the two world wars and the Cold War that followed; right up to the tragedy of 9/11, the wars in Iraq and Afghanistan, and the epoch-making election of Barack Obama. Certain broad trends shape much of the narrative-- immigration, urbanization, slavery, continental expansion, the global projection of U.S. power, the centrality of religion, the progression from an agrarian to an industrial to a post-industrial economic order. Yet in underscoring such large themes, Boyer also highlights the diversity of the American

experience, the importance of individual actors, and the crucial role of race, ethnicity, gender, and social class in shaping the contours of specific groups within the nations larger tapestry. And along the way, he touches upon the cultural milestones of American history, from Tom Paines The Crisis to Allen Ginsbergs Howl. American History: A Very Short Introduction is a panoramic history of the United States, one that covers virtually every topic of importance--and yet can be read in a single day.

Writing the Nation Amy Berke 2015-12-31 Writing the Nation: A Concise Introduction to American Literature 1865 to

Present, is designed to continue the preservation of famous American literary works in the minds of college students.

**American Cultural History: A Very Short Introduction** Eric

Avila 2018-07-17 The iconic images of Uncle Sam and

Marilyn Monroe, or the "fireside chats" of Franklin D. Roosevelt

and the oratory of Martin Luther King, Jr.: these are the words,

images, and sounds that populate American cultural

history. From the Boston Tea Party to the Dodgers, from the

themselves, their nation, and their relationship to the world and its peoples. This Very Short Introduction recounts the history of American culture and its creation by diverse social and ethnic groups. In doing so, it emphasizes the historic role of culture in relation to broader social, political, and economic developments. Across the lines of race, class, gender, and sexuality, as well as language, region, and religion, diverse Americans have forged a national culture with a global reach, inventing stories that have shaped a national identity and an American way of life.

crossroads, a meeting place between western Europe and West Africa. The South's beginnings illuminate the expansion of Europe into the New World, creating a colonial slave society that distinguished it from other parts of the United States but fostered commonalities with other colonial societies. The Civil War and civil rights movement transformed the South in differing ways and remain a part of a vibrant and contested public memory. More recently, the South's pronounced traditionalism in customs and values was in tension with the forces of modernization that slowly forced change in the

twentieth century. Southerners' creative responses to these experiences have made the American South well known around the world in literature, film, music, and cuisine. Charles Reagan Wilson argues for the significance of creativity in the South, emerging from the diversity of peoples, cultures, and experiences that the regional context fostered. The South has now become the new center of immigration, adding to the complexity of the region's cultural, social, economic, and political life. In this book, the burdens and tragedies of southern history are placed beside the creative achievements that have come

out of the region, producing a portrait of a complex American place.

*Industrialization and the Transformation of American Life: A Brief Introduction*

Jonathan Rees 2015-05-18 This book provides a descriptive, episodic yet analytical synthesis of industrialization in America. It integrates analysis of the profound economic and social changes taking place during the period between 1877 and the start of the Great Depression. The text is supported by 30 case studies to illustrate the underlying principles of industrialization that cumulatively convey a comprehensive understanding

of the era.

exploration of the topics at hand. The second half of the book features interdisciplinary case studies, each of which focuses on a specific country or subregion and a particular issue. Each chapter gives a flavor for the cultural distinctiveness of the particular country yet also draws attention to global linkages. Readers will come away from this book with an understanding of the larger historical, political, and cultural frameworks that shaped Latin America as we know it today, and of current issues that have relevance in Latin America and beyond.

### British or American English?

John Algeo 2006-08-10

Speakers of British and American English display some striking differences in their use of grammar. In this detailed survey, John Algeo considers questions such as: •Who lives on a street, and who lives in a street? •Who takes a bath, and who has a bath? •Who says Neither do I, and who says Nor do I? •After 'thank you', who says Not at all and who says You're welcome? •Whose team are on the ball, and whose team isn't? Containing extensive quotations from real-life English on both sides of the Atlantic, collected over the past twenty years, this is a clear and highly organized guide to the differences - and the similarities

- between the grammar of British and American speakers. Written for those with no prior knowledge of linguistics, it shows how these grammatical differences are linked mainly to particular words, and provides an accessible account of contemporary English in use.

**The Cambridge Companion to Modern American Culture** C. W. E. Bigsby 2006-10-12 The Cambridge Companion to Modern American Culture offers a comprehensive, authoritative and accessible overview of the cultural themes and intellectual issues that drive the dominant culture of the twentieth century. The essays explore the social, political and economic forces

that have made America what it is today. Varied, extensive and challenging, this Companion is essential reading for students and teachers of American studies around the world. It is the most accessible and useful introduction available to an exciting ...

[The Routledge Introduction to American Modernism](#) Linda Wagner-Martin 2016-02-12 The modernist period was crucial for American literature as it gave writers the chance to be truly innovative and create their own distinct identity. Starting slightly earlier than many guides to modernism this lucid and comprehensive guide introduces the reader to the essential

history of the period including technology, religion, economy, class, gender and immigration. These contexts are woven of into discussions of many significant authors and texts from the period. Wagner-Martin brings her years of writing about American modernism to explicate poetry and drama as well as fiction and life-writing. Among the authors emphasized are Ernest Hemingway, William Faulkner, Zora Neale Hurston, Langston Hughes, F. Scott Fitzgerald, Gertrude Stein, Willa Cather, John Dos Passos, William Carlos Williams, Mike Gold, James T. Farrell, Clifford Odets, John Steinbeck and countless others. A clear and

engaging introduction to an exciting period of literature, this is the ultimate guide for those seeking an overview of American Modernism.

America since 1900. Scott Mainwaring and Aníbal Pérez-Liñán argue for a theoretical approach situated between long-term structural and cultural explanations and short-term explanations that look at the decisions of specific leaders. They focus on the political preferences of powerful actors - the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism - to explain regime outcomes. They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization. Based on extensive research into the

political histories of all twenty Latin American countries, this book offers the first extended analysis of regime emergence, survival and failure for all of Latin America over a long period of time.

### **The Myths That Made America**

Heike Paul 2014-08-31 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US-American identities today. These myths include the myth of »discovery,« the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of

the West, and the myth of the self-made man. The chapters provide extended analyses of each of these myths, using examples from popular culture, literature, memorial culture, school books, and every-day life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

American Government Glen Krutz 2016-07-14 "Published by OpenStax College, American Government is designed to

meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American

government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and

emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website.

**Latin American Politics and Development 2017** For over thirty years, Latin American Politics and Development has kept instructors and students

abreast of current affairs and changes in Latin America. Now in its ninth edition, this definitive text has been updated throughout and features contributions from experts in the field, including twenty new and revised chapters on Mexico, Central America, the Caribbean, and South America. The fully updated foundational section includes new chapters on political economy and U.S.-Latin American relations and covers the changing context of Latin American politics, the pattern of historical development, political culture, interest groups and political parties, government machinery, the role of the state and public policy, and the

struggle for democracy. In addition to detailed country-by-country chapters, Latin American Politics and Development provides a comprehensive regional overview.

Was America Founded as a Christian Nation? John Fea 2011-02-16 Fea offers an even-handed primer on whether America was founded to be a Christian nation, as many evangelicals assert, or a secular state, as others contend. He approaches the title's question from a historical perspective, helping readers see past the emotional rhetoric of today to the recorded facts of our past.

Readers on both sides of the

issues will appreciate that this book occupies a middle ground, noting the good points and the less-nuanced arguments of both sides and leading us always back to the primary sources that our shared American history comprises.

**An Introduction to the History of America**  
Chittabrata Palit

2013-09-04

**The Routledge Introduction to Native American Literature**

Drew Lopezina 2020-07-23

This Introduction makes available for both student, instructor, and aficionado a refined set of tools for decolonizing our approaches prior to entering the unfamiliar landscape of Native American

literatures. This book will introduce indigenous perspectives and traditions as articulated by indigenous authors whose voices have been a vital, if often overlooked, component of the American dialogue for more than 400 years. Paramount to this consideration of Native-centered reading is the understanding that literature was not something bestowed upon Native peoples by the settler culture, either through benevolent interventions or violent programs of forced assimilation. Native literature precedes colonization, and Native stories and traditions have their roots in both the

precolonized and the decolonizing worlds. As this far-reaching survey of Native literary contributions will demonstrate, almost without fail, when indigenous writers elected to enter into the world of western letters, they did so with the intention of maintaining indigenous culture and community. Writing was and always remains a strategy for survival.

American Hegemony and the Rise of Emerging Powers

Salvador Santino F. Regilme  
2017-10-18 Over the last decade, the United States' position as the world's most powerful state has appeared increasingly unstable. The US

invasions of Afghanistan and Iraq, non-traditional security threats, global economic instability, the apparent spread of authoritarianism and illiberal politics, together with the rise of emerging powers from the Global South have led many to predict the end of Western dominance on the global stage.

This book brings together scholars from international relations, economics, history, sociology and area studies to debate the future of US leadership in the international system. The book analyses the past, present and future of US hegemony in key regions in the Asia-Pacific, Latin America, Middle East, Europe and Africa.

– while also examining the dynamic interactions of US hegemony with other established, rising and re-emerging powers such as Russia, China, Japan, India, Turkey and South Africa. *American Hegemony and the Rise of Emerging Powers* explores how changes in the patterns of cooperation and conflict among states, regional actors and transnational non-state actors have affected the rise of emerging global powers and the suggested decline of US leadership. Scholars, students and policy practitioners who are interested in the future of the US-led international system, the rise of emerging

powers from the Global South and related global policy challenges will find this multidisciplinary volume an invaluable guide to the shifting position of American hegemony. *Colonial America* Alan Taylor 2013 In this Very Short Introduction, Alan Taylor presents the current scholarly understanding of colonial America to a broader audience. He focuses on the transatlantic and a transcontinental perspective, examining the interplay of Europe, Africa, and the Americas through the flows of goods, people, plants, animals, capital, and ideas. Johnson, Loch K. 2021-08-27  
Providing a comprehensive  
account of America's  
constitutional framework, this  
Advanced Introduction  
examines how U.S officials  
carry out America's foreign  
policy objectives through  
diplomacy, trade agreements,  
secretive covert actions, and  
the use of military force. Loch  
K. Johnson delivers an  
invigorating examination of  
ethical and legal aspects of  
American foreign policy as well  
as providing a new perspective  
on topics such as domestic  
politics, diplomacy and  
policymaking.

American Foreign Relations

Andrew Preston 2019-04-01 For

better or worse--be it militarily,  
politically, economically,  
technologically, or culturally--  
Americans have had a profound  
role in shaping the wider world  
beyond them. The United  
States has been a savior to  
some, a curse to others, but  
either way such views are often  
based on a caricature of  
American actions and  
intentions. American Foreign  
Relations, then, is a subject of  
immense global importance that  
provokes strong emotions and  
much debate, but often based  
on deep misunderstanding. This  
Very Short Introduction  
analyzes the key episodes,  
themes, and individuals in the

Parkman's history of deep time to Henry Adams's thermodynamic history. Although not a well-organized set of professional researchers, these historians shared the same concern: the problems of temporalization and secularization in history writing. As the time-honored framework of sacred history was gradually outdated, American historians at that time turned to individual facts as possible evidence for a new generalization, and tried different "scientific" theories to give coherency to their writings. History writing was in its transitional phase, shifting from religion to science, deduction to

induction, and static to dynamic worldview.

Adam Smith's America Glory M. Liu 2022-11-29 The unlikely story of how Americans canonized Adam Smith as the patron saint of free markets Originally published in 1776, Adam Smith's *The Wealth of Nations* was lauded by America's founders as a landmark work of Enlightenment thinking about national wealth, statecraft, and moral virtue. Today, Smith is one of the most influential icons of economic thought in America. Glory Liu traces how generations of Americans have read, reinterpreted, and weaponized Smith's ideas, revealing how his

*Downloaded from  
unovent.com on  
September 28, 2022 by  
guest*

popular image as a champion of American-style capitalism and free markets is a historical invention. Drawing on a trove of illuminating archival materials, Liu tells the story of how an unassuming Scottish philosopher captured the American imagination and played a leading role in shaping American economic and political ideas. She shows how Smith became known as the father of political economy in the nineteenth century and was firmly associated with free trade, and how, in the aftermath of the Great Depression, the Chicago School of Economics transformed him into the preeminent theorist of self-

interest and the miracle of free markets. Liu explores how a new generation of political theorists and public intellectuals has sought to recover Smith's original intentions and restore his reputation as a moral philosopher. Charting the enduring fascination that this humble philosopher from Scotland has held for American readers over more than two centuries, Adam Smith's America shows how Smith continues to be a vehicle for articulating perennial moral and political anxieties about modern capitalism.

**North American Indians: A Very Short Introduction** Theda Perdue 2010-08-10 When Europeans first arrived in North America, between five and eight million indigenous people were already living there. But how did they come to be here? What were their agricultural, spiritual, and hunting practices? How did their societies evolve and what challenges do they face today? Eminent historians Theda Perdue and Michael Green begin by describing how nomadic bands of hunter-gatherers followed the bison and woolly mammoth over the Bering land mass between Asia and what is now Alaska

between 25,000 and 15,000 years ago, settling throughout North America. They describe hunting practices among different tribes, how some made the gradual transition to more settled, agricultural ways of life, the role of kinship and cooperation in Native societies, their varied burial rites and spiritual practices, and many other features of Native American life. Throughout the book, Perdue and Green stress the great diversity of indigenous peoples in America, who spoke more than 400 different languages before the arrival of Europeans and whose ways of life varied according to the environments they settled in.

*Downloaded from  
[unovent.com](http://unovent.com) on  
September 28, 2022 by  
guest*

and adapted to so successfully.

Most importantly, the authors stress how Native Americans have struggled to maintain their sovereignty--first with European powers and then with the United States--in order to retain their lands, govern themselves, support their people, and pursue practices that have made their lives meaningful.

Going beyond the stereotypes that so often distort our views of Native Americans, this Very Short Introduction offers a historically accurate, deeply engaging, and often inspiring account of the wide array of Native peoples in America.

About the Series: Combining authority with wit, accessibility,

and style, Very Short

Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

*American Business History: a Very Short Introduction* Walter A. Friedman 2020-04-15 By the early twentieth century, it became common to describe the United States as a "business civilization." President Coolidge in 1925 said, "The chief business of the American people is business." More recently, historian Sven Beckert characterized Henry Ford's massive manufactory as the embodiment of America: "While Athens had its Parthenon and Rome its Colosseum, the United States had its River Rouge Factory in Detroit..." How did business come to assume such power and cultural centrality in America? This

volume explores the variety of business enterprise in the United States and analyzes its presence in the country's economy, its evolution over time, and its meaning in society. It introduces readers to formative business leaders (including Elbert Gary, Harlow Curtice, and Mary Kay Ash), leading firms (Mellon Bank, National Cash Register, Xerox), and fiction about business people (The Octopus, Babbitt, The Man in the Grey Flannel Suit). It also discusses Alfred Chandler, Joseph Schumpeter, Mira Wilkins, and others who made significant contributions to understanding of America's business history. This VSI

*Downloaded from  
[unovent.com](https://www.unovent.com) on  
September 28, 2022 by  
guest*

pursues its three central themes - the evolution, scale, and culture of American business - in a chronological framework stretching from the American Revolution to today. The first theme is evolution: How has U.S. business evolved over time? How have American companies competed with one another and with foreign firms? Why have ideas about strategy and management changed? Why did business people in the mid-twentieth century celebrate an "organizational" culture promising long-term employment in the same company, while a few decades later entrepreneurship was prized? Second is scale: Why

did business assume such enormous scale in the United States? Was the rise of gigantic corporations due to the industriousness of its population, or natural resources, or government policies? And third, culture: What are the characteristics of a "business civilization"? How have opinions on the meaning of business changed? In the late nineteenth century, Andrew Carnegie believed that America's numerous enterprises represented an exuberant "triumph of democracy." After World War II, however, sociologist William H. Whyte saw business culture as stultifying, and historian Richard

Hofstadter wrote, "Once great men created fortunes; today a great system creates fortunate men." How did changes in the nature of business affect popular views? Walter A. Friedman provides the long view of these important developments.

**Introduction to Gangs in America** Ronald M. Holmes  
2011-12-02 Gangs have long been a social and criminal threat to society. Introduction to Gangs in America explains how gangs are addressed as a criminal justice and public policy problem, providing a student-friendly, easily accessible, concise overview of the role, place, structure, and activities of

gangs in American society. The book describes what gangs a Housing in America Marijoan Bull 2018-03-22 Housing is a fundamental need and universal part of human living that shapes our lives in profound ways that go far beyond basic sheltering. Where we live can determine our self-image, social status, health and safety, quality of public services, access to jobs, and transportation options. But the reality for many in America is that housing choices are constrained: costs are unaffordable, discriminatory practices remain, and physical features do not align with needs. As a society, we recognize the significant role

housing plays in our overall quality of life and the stability of our communities. We have made a national commitment to decent housing for all yet this promise remains unrealized.

Housing in America provides a broad overview of the field of housing, with the objective of fostering an informed and engaged citizenry. The evolution of housing norms and policy is explored in a historical context while underscoring the human and cultural dimensions of housing program choices.

Specific topics covered include: why housing matters; housing and culture; housing frameworks and political ideologies; housing and

opportunities; housing and the economy; housing discrimination; and housing affordability. Readers will gain an understanding of the basic debates within the field of housing, consider the motivations and performance of various interventions, and critically examine persistent patterns of racial and class inequality. With an exploration of theoretical frameworks, short case studies, reflective exercises, and strong visuals, this introductory text explores improving housing choices in America.

Hinduism in America Michael J. Altman 2022 "Hinduism in America: An Introduction is a

*Downloaded from  
unovent.com on

concise introduction to the long history of religion in the encounter between America and India. It is not a book that will tell you what Hinduism is, rather it is an introduction to the variety of ways Hinduism has been represented, constructed, and practiced in the United States. Americans have been interested in the religions of India since the colonial period and, by the late nineteenth century, the first Hindu teachers arrived in the United States. Throughout the twentieth century, interest in Hinduism and yoga grew, even as anti-Asian and anti-immigrant politics and policies in America intensified. When the Cold War

led to changes in U.S. immigration policy in 1965, new immigrant communities arrived in the United States and built new Hindu institutions. Hinduism in America is an accessible introduction to these developments of Hinduism in the United States. Each chapter in Hinduism in America uses a key theoretical term in the study of religion to frame explore a variety of historical topics including: American missionary encounters with India representations of Hindu religions in American literature world religions and Hinduism vedanta yoga Hinduism in the American counterculture of the 1960s immigrant Hindu

communities in the United States. Hinduism in America provides an overview of the multifaceted history of Hinduism in America. Ideal for students and scholars approaching the topic for the first time, the book includes sections in each chapter that provide useful theoretical terms for understanding that multifaceted history"--

### **Introduction to Latin America**

Peadar Kirby 2003-05-27

Introduction to Latin America provides a completely new introduction to the political, social and economic forces shaping this essential region of undergraduate study today. It is the first textbook to place Latin

America within a genuinely global context and introduce the debates and impact of globalization, neoliberalism, democratization, and the environment.

*The Introduction of Accounting to America* Albert B. Newton  
1938

*The Routledge Introduction to American Women Writers*

Wendy Martin 2016-04-28 The

Routledge Introduction to American Women Writers

considers the important literary, historical, cultural, and intellectual contexts of American women authors from the seventeenth century to the present and provides readers with an analysis of current

literary trends and debates in women's literature. This accessible and engaging guide covers a variety of essential topics, such as: the transatlantic and transnational origins of American women's literary traditions the colonial period and the Puritans the early national period and the rhetoric of independence the nineteenth century and the Civil War the twentieth century, including modernism, the Harlem Renaissance, and the Civil Rights era trends in twenty-first century American women's writing feminism, gender and sexuality, regionalism, domesticity, ethnicity, and multiculturalism. The volume

examines the ways in which women writers from diverse racial, social, and cultural backgrounds have shaped American literary traditions, giving particular attention to the ways writers worked inside, outside, and around the strictures of their cultural and historical moments to create space for women's voices and experiences as a vital part of American life. Addressing key contemporary and theoretical debates, this comprehensive overview presents a highly readable narrative of the development of literature by American women and offers a crucial range of perspectives on American literary history.

## **A History of Islam in America**

Kambiz GhaneaBassiri

2010-04-19 Traces the history of Muslims in the US and their waves of immigration and conversion across five centuries.

## **American Political History: A Very Short Introduction**

Donald T. Critchlow 2015-01-14 The Founding Fathers who drafted the United States Constitution in 1787 distrusted political parties, popular democracy, centralized government, and a strong executive office. Yet the country's national politics have historically included all those features. In *American Political History: A Very Short Introduction*, Donald Critchlow

takes on this contradiction between original theory and actual practice. This brief, accessible book explores the nature of the two-party system, key turning points in American political history, representative presidential and congressional elections, struggles to expand the electorate, and critical social protest and third-party movements. The volume emphasizes the continuity of a liberal tradition challenged by partisan divide, war, and periodic economic turmoil. *American Political History: A Very Short Introduction* explores the emergence of a democratic political culture within a republican form of government,

showing the mobilization and extension of the mass electorate over the lifespan of the country. In a nation characterized by great racial, ethnic, and religious diversity, American democracy has proven extraordinarily durable. Individual parties have risen and fallen, but the dominance of the two-party system persists. Fierce debates over the meaning of the U.S. Constitution have created profound divisions within the parties and among voters, but a belief in the importance of constitutional order persists among political leaders and voters. Americans have been deeply divided about the extent

of federal power, slavery, the meaning of citizenship, immigration policy, civil rights, and a range of economic, financial, and social policies. New immigrants, racial minorities, and women have joined the electorate and the debates. But American political history, with its deep social divisions, bellicose rhetoric, and antagonistic partisanship provides valuable lessons about the meaning and viability of democracy in the early 21st century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books

are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**A New Introduction to American Studies** Howard Temperley

2014-07-21 A New Introduction to American Studies provides a coherent portrait of American history, literature, politics, culture and society, and also deals with some of the central themes and preoccupations of

American life. It will provoke students into thinking about what it actually means to study a culture. Ideals such as the commitment to liberty, equality and material progress are fully examined and new light is shed on the sometimes contradictory ways in which these ideals have informed the nation's history and culture. For introductory undergraduate courses in American Studies, American History and American Literature.

**An Introduction to Hispanic American History** Tom Bard Jones 1939
