

Jp 3 41 Chemical Biological Radiological Nuclear And

Thank you completely much for downloading **Jp 3 41 Chemical Biological Radiological Nuclear And**. Maybe you have knowledge that, people have seen numerous periods for their favorite books afterward this Jp 3 41 Chemical Biological Radiological Nuclear And, but stop taking place in harmful downloads.

Rather than enjoying a good PDF past a mug of coffee in the afternoon, otherwise they juggled when some harmful virus inside their computer. **Jp 3 41 Chemical Biological Radiological Nuclear And** is simple in our digital library; an online entrance to it is set as public in view of that you can download it instantly. Our digital library saves in merged countries, allowing you to get the most less latency era to download any of our books like this one. Merely said, the Jp 3 41 Chemical Biological Radiological Nuclear And is universally compatible in the manner of any devices to read.

Protection (ADP 3-37) Headquarters Department of the Army 2019-10-09 ADP 3-37 Protection provides guidance on protection and the protection warfighting function. It establishes the protection principles for commanders and staffs who are responsible for planning and executing protection in support of unified land operations. The synchronization and integration of protection tasks enable commanders to safeguard bases, secure routes, and protect forces. The principal audience for ADP 3-37 is commanders and staffs. Commanders and staffs of Army headquarters serving as joint task force or multinational headquarters should also refer to applicable joint or multinational doctrine concerning the range of military operations and joint or multinational forces. In addition, trainers and educators throughout the Army will use this manual as a doctrinal reference for protection. Protection is the preservation of the effectiveness and survivability of mission-related military and nonmilitary personnel, equipment, facilities, information, and infrastructure deployed...

Operations 2008-10 The Army believes that the U.S. will continue to be engaged in an era of "persistent conflict" -- a period of protracted confrontation among states, non-state, and individual actors increasingly willing to use violence to achieve their political and ideological ends. This manual is a revolutionary departure

from past doctrine. Commanders will employ offensive, defensive, and civil support operations simultaneously as part of an interdependent joint force to seize, retain, and exploit the initiative, accepting prudent risk to create opportunities to achieve decisive results. This ed. will take us into the 21st century urban battlefields among the people without losing our capabilities to dominate the higher conventional end of the spectrum of conflict.

Chemical, Biological, Radiological, and Nuclear Operations (FM 3-11) Headquarters Department Of The Army 2019-07-18 FM 3-11 provides commanders and staffs with overarching chemical doctrine for operations to assess, protect, and mitigate the entire range of CBRN threats and hazards-including support to countering weapons of mass destruction (CWMD) activities in all operational environments. It addresses principles, fundamentals, planning, operational considerations, and training and support functions. It provides a common framework and language for CBRN operations and constitutes the doctrinal foundation for developing other fundamentals and tactics, techniques, and procedures detailed in subordinate doctrine manuals. This manual is a key integrating publication that links the doctrine for the CBRN units and staffs with Army operational doctrine and joint doctrine. The principal audience for FM 3-11 is commanders, staffs, and leaders of

theater armies, corps, divisions, and brigades as well as CBRN units that integrate capability into those formations. However, FM 3-11 is applicable to all members of the profession of arms

Proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018) Sebastiano Bagnara 2018-08-07 This book presents the proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018), held on August 26-30, 2018, in Florence, Italy. By highlighting the latest theories and models, as well as cutting-edge technologies and applications, and by combining findings from a range of disciplines including engineering, design, robotics, healthcare, management, computer science, human biology and behavioral science, it provides researchers and practitioners alike with a comprehensive, timely guide on human factors and ergonomics. It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize system performance, while at the same time promoting the health, safety and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains and productive sectors. This volume includes papers addressing Healthcare Ergonomics.

The Dictionary of Military Terms U.S. Department of Defense 2015-02-03 The official and comprehensive dictionary of military and associated terminology compiled and used by the Department of Defense. Divided into two sections, The Dictionary of Military Terms contains the terms and definitions approved for Department of Defense (DOD) and the North Atlantic Treaty Organization (NATO) use as well as a complete listing of commonly used abbreviations and acronyms. These military and associated terms, together with their definitions, constitute approved terminology for general use by all DOD components. The Dictionary of Military Terms supplements standard English-language dictionaries and standardizes military and associated terminology to improve

communication and mutual understanding within the DOD, with other federal agencies, and among the United States and its allies. It is the primary terminology source when preparing correspondence, including policy, strategy, doctrine, and planning documents. This publication applies to the Office of the Secretary of Defense, the Services, the Joint Staff, combatant commands, DOD agencies, and all other DOD components.

Tactical Logistics Made Easy LTC James H. Henderson, USA (Ret.) 2015-03-11 This book is designed to provide the reader with a “back to the basics” look at tactical logistics, focusing on a more formal and detailed understanding of proper field and staff procedures, processes, relationships, and development that encompass the before, during, and after combat operations. So sit back and enjoy for I’ve done all the long and exhausting research for you and placed all the pertinent information in one book rather than multiple documents. The book is written with a series of lessons formatted in a fashion that offers the reader a doctrinal concept in developing a tactical standing operating procedure (TACSOP) and its components, but with a logistical flavor providing detailed instructions to standardize a complicated routine and recurring field and staff procedures that can enhance the overall logistical functions and capability of every mission.

Nanotechnology for Defence Applications Narendra Kumar 2019-11-01 This book examines the application of nanoscience and nanotechnology in military defence strategies. Both historical and current perspectives on military technologies are discussed. The book provides comprehensive details on current trends in the application of nanotechnology to ground, air, and naval specializations. Furthermore, nanotechnology-enabled high energy explosives and propellants, chemical, biological, radiation, and nuclear threats and their detection/protection, and camouflage and

stealth for signature management of military targets in multispectral wavelength signals are analyzed. The book also covers nanotechnology-enabled armor and platforms, which may serve as lightweight and high mechanical strength options in contrast to conventional systems. Finally, the book also emphasizes future military applications of nanotechnology and its integration into 'smart' materials. Provides comprehensive details on trends in the application of nanotechnology to ground, air, and naval defence systems; Examines the application of nanoscience and nanotechnology in military defence strategies; Offers pathways and research avenues for development of nanotechnology and materials applications in military capacities.

Civil Engineer Guide to Expeditionary Force Protection 2008

"The So What Factor" of Logistics LTC James H. Henderson, USA (Ret.) 2011-09-29 This book is designed to provide the reader with a diverse look at the different logistical processes that make up the "Science and Art of Logistics", focusing on old as well as new doctrine and theory's, and how to implement new ideas, procedures, and technology that can enhance the overall logistical capability of any operations. "WARNING: The last three Chapters are conceptual and not under development, but I sure wish I would have had this functionality when I was in a uniform!" Foreign Humanitarian Assistance Department of Defense 2019-07-19 Foreign Humanitarian Assistance, Joint Publication 3-29, 14 May 2019 This publication provides fundamental principles and guidance to plan, execute, and assess foreign humanitarian assistance operations. This publication has been prepared under the direction of the Chairman of the Joint Chiefs of Staff (CJCS). It sets forth joint doctrine to govern the activities and performance of the Armed

Forces of the United States in joint operations, and it provides considerations for military interaction with governmental and nongovernmental agencies, multinational forces, and other interorganizational partners. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

Defense Support of Civil Authorities (ADP 3-28) Headquarters Department of the Army 2019-09-27 Army doctrine publication (ADP) 3-28 is the doctrinal foundation for the Army's contribution to defense support of civil authorities (DSCA). ADP 3-28 explains how the Army conducts DSCA missions and National Guard civil support missions as part of unified land operations. ADP 3-28 focuses on achieving unity of effort among the Army battalions, brigades, division headquarters, and Army Service component commands conducting DSCA with support from the institutional force and in cooperation with joint and interagency partners. (See Introductory Figure, on page viii for the complete ADP 3-28 logic chart.) The principal audience for ADP 3-28 is all members of the Army profession. Commanders and staffs of Army headquarters serving as joint task force headquarters should also refer to applicable joint doctrine concerning the range of military operations and joint forces.

This is the most current joint information available for managing staff activities.

Intelligence Cooperation and the War on Terror Adam D.M. Svendsen 2009-10-16 This book provides an in-depth analysis of UK-US intelligence cooperation in the post-9/11 world. Seeking to connect an analysis of intelligence liaison with the wider realm of Anglo-American Relations, the book draws on a wide range of interviews and consultations with key actors in both countries. The book is centred around two critical and empirical case studies, focusing on the interactions on the key issues of counterterrorism and weapons of mass destruction (WMD) counter-proliferation. These case studies provide substantive insights into a range of interactions such as 9/11, the 7/7 London bombings, the A.Q. Khan nuclear network, the prelude to the 2003 Iraq War, extraordinary rendition and special forces deployments. Drawing on over 60 interviews conducted in the UK and US with prominent decision-makers and practitioners, these issues are examined in the contemporary historical context, with the main focus being on the years 2000-05. This book will be of much interest to students of intelligence studies, foreign policy, security studies and International Relations in general. Adam Svendsen has a Phd in

International History from the University of Warwick. He has been a Visiting Scholar at the Center for Peace and Security Studies, Georgetown University, and has contributed to the International Security Programme at Chatham House and to the work of IISS, London.

Department of Defense Dictionary of Military and Associated Terms Barry Leonard

2011 This is a print on demand edition of a hard to find publication. This dictionary sets forth standard U.S. military and associated terminology to encompass the joint activity of the Armed Forces of the United States in both U.S. joint and allied joint operations, as well as to encompass the Department of Defense (DoD) as a whole. These military and associated terms, together with their definitions, constitute approved DoD terminology for general use by all components of the DoD. The Sec. of Defense has directed the use of this dictionary throughout the DoD to ensure standardization of military and associated terminology. Update of 2002 edition.

The Army Lawyer 2013-03

Joint Urban Operations Joint Chiefs Of Staff 2013-11 This publication has been prepared under the direction of the Chairman of the Joint Chiefs of Staff (CJCS). It sets forth joint doctrine to govern the activities and performance of the Armed Forces of the United States in joint operations and provides the doctrinal basis for interagency coordination and for US military involvement in multinational operations. It provides military guidance for the exercise of authority by combatant commanders and other joint force commanders (JFCs) and prescribes joint doctrine for operations, education, and training. It provides military guidance for use by the Armed Forces in preparing their appropriate plans. It is not the intent of this publication to restrict the authority of the JFC from organizing the force and executing the mission in a manner the JFC deems most appropriate to ensure unity of effort in the accomplishment of the overall objective.

Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives Joint Chiefs of Staff 2006-10-02 1. Scope This publication provides

overarching guidelines and principles to assist commanders and their staffs in planning and conducting joint chemical, biological, radiological, nuclear, and high-yield explosives consequence management operations. 2. Purpose This publication has been prepared under the direction of the Chairman of the Joint Chiefs of Staff. It sets forth joint doctrine to govern the activities and performance of the Armed Forces of the United States in operations and provides the doctrinal basis for interagency coordination and for US military involvement in multinational operations. It provides military guidance for the exercise of authority by combatant commanders and other joint force commanders (JFCs) and prescribes joint doctrine for operations and training. It provides military guidance for use by the Armed Forces in preparing their appropriate plans. It is not the intent of this publication to restrict the authority of the JFC from organizing the force and executing the mission in a manner the JFC deems most appropriate to ensure unity of effort in the accomplishment of the overall objective. 3. Application a. Joint doctrine established in this publication applies to the commanders of combatant commands, subunified commands, joint task forces, subordinate components of these commands, and the Services. b. The guidance in this publication is authoritative; as such, this doctrine will be followed except when, in the judgment of the commander, exceptional circumstances dictate otherwise. If conflicts arise between the contents of this publication and the contents of Service publications, this publication will take precedence unless the Chairman of the Joint Chiefs of Staff, normally in coordination with the other members of the Joint Chiefs of Staff, has provided more current and specific guidance. Commanders of forces operating as part of a multinational (alliance or coalition) military command should follow multinational doctrine and procedures ratified by JP 3-41 the United States. For doctrine and procedures not ratified by the United States, commanders should evaluate and follow the multinational command's doctrine and procedures, where applicable and consistent with US law, regulations, and doctrine. **A Guide to Federal Terms and Acronyms** Don Philpott 2010-12-28 Navigating government

documents is a task which requires considerable knowledge of specialized terms and acronyms. Their sheer number makes mastering them nearly impossible. But now, all of these terms and their definitions are within reach. A Guide to Federal Terms and Acronyms presents a glossary of key definitions used by the Federal Government. This handy reference guide is both comprehensive, covering all major Federal Government agencies, and accessible, organized in a logical, easy-to-use format. It is an essential tool for anyone who works with government information.

Joint Publication Jp 3-41 Chemical, Biological, Radiological, and Nuclear Consequence Management 21 June 2012 United States Government US Army 2012-11-12 This publication provides joint doctrine for the military response to mitigate the effects of a chemical, biological, radiological, or nuclear event or incident. This publication has been prepared under the direction of the Chairman of the Joint Chiefs of Staff. It sets forth joint doctrine to govern the activities and performance of the Armed Forces of the United States in operations and provides the doctrinal basis for interagency coordination and for US military involvement in multinational operations. It provides military guidance for the exercise of authority by combatant commanders and other joint force commanders (JFCs) and prescribes joint doctrine for operations and training. It provides military guidance for use by the Armed Forces in preparing their appropriate plans. It is not the intent of this publication to restrict the authority of the JFC from organizing the force and executing the mission in a manner the JFC deems most appropriate to ensure unity of effort in the accomplishment of the overall objective. Joint doctrine established in this publication applies to the commanders of combatant commands, subunified commands, joint task forces, subordinate components of these commands, and the Services. The guidance in this publication is authoritative; as such, this doctrine will be followed except when, in the judgment of the commander, exceptional circumstances dictate otherwise. Introduction to Homeland Defense and Defense Support of Civil Authorities (DSCA) Bert B.

Tussing 2014-11-24 The application of our Armed Forces within the states and territories of the United States is far from intuitive. The challenges of defending the country against assaults within the homeland are much more complex than engaging our enemies on foreign soil. Likewise, the introduction of the military's appreciable capabilities in response to disasters

Chemical Biological Radiological and Nuclear (Cbrn) Defense Training and

Readiness Manual Department of the Navy 2010-05-13 Chemical Biological Radiological and Nuclear (CBRN) Defense Training and Readiness Manual (NAVMC 3500.78) establishes Core Capability Mission Essential Tasks (MET) for readiness reporting and required events for standardization training of Marines assigned to the Marine Corps Chemical Biological Radiological and Nuclear (CBRN) Occupational Field. It also provides a tasking for formal schools preparing personnel for service in Marine Corps CBRN Military Occupational Specialty (MOS).

Installation Evacuation Planning Handbook 2010

Defense Support of Civil Authorities (DSCA) United States. Department of the Air Force 2012 "This publication implements Defense Emergency Preparedness Liaison Officer (EPLO) Program; DODD 3025.18, Defense Support of Civil Authorities (DSCA); and DODD 5525.5, DOD Cooperation with Civilian Law Enforcement Officials and establishes policy to ensure the Air Force plans, organizes, and trains forces to conduct Defense Support of Civil Authorities

(DSCA) operations within the United States and its territories and protectorates consistent with the Air Force mission. Doctrine in support of this Air Force Policy Directive (AFPD) is found in Air Force Doctrine Document (AFDD) 3-27, Homeland Operations; AFDD 3-40, Counter-Chemical, Biological, Radiological, and Nuclear Operations; AFDD 4-02, Health Services; Joint Publication (JP) 3-28, Civil Support; and JP 3-41, Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives Consequence Management which provide official doctrine on Air Force support to federal, state, or local civil authorities in cases of natural or man-made domestic emergencies, civil disturbances, or authorized law enforcement activities ... This revision changes the title from 'Homeland Defense and Civil Support' to 'Defense Support of Civil Authorities' and clarifies doctrine, policy, organization roles, and responsibilities to coordinate and organize efforts to manage, prepare for, and respond to natural or man-made disasters"--Pages 1-2.

To Be a Soldier Department of the Army

2017-10-17 To Be a Soldier offers the US Army's two capstone doctrinal manuals in one place for the first time. This guide begins with the Army's introductory text, FM-1 The Army, which explains the Army's origin and purpose, its mission and values, how it functions as a portion of a joint military force in combat, and the importance of the individual soldier in a larger fighting force. When readers have learned the fundamentals of the Army, FM-3 Operations provides foundational knowledge of the full spectrum of Army operations. This manual is the Army's principal tool for the instruction of today's soldiers in the art and science of warfare, and has been recently updated to discuss counter-insurgency and hybrid threats in addition to conventional land operations. To Be a Soldier is the reader's guide to the Army's most fundamental knowledge by offering its two capstone texts in one place. The information in this handbook forms the basis for all the knowledge conveyed in any subsequent Army field manuals, making it required reading for all soldiers and readers with interest in US Army training and operations.

Brunei Air force Handbook - Strategic Information and Weapon Systems IBP USA

**Army Techniques Publication Atp 3-11.41
Mcrp 3-37.2c Nttp 3-11.24 Afttp 3-2.37**

United States Government Us Army 2015-08-15
This publication, Army Techniques Publication ATP 3-11.41 MCRP 3-37.2C NTP 3-11.24 AFTTP 3-2.37 Multi-Service Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Consequence Management Operations July 2015, provides commanders, staffs, key agencies, and military members with a key reference for planning and conducting chemical, biological, radiological, and nuclear (CBRN) consequence management (CM). It provides the tools for CBRN responders to effectively manage the consequences of a CBRN incident. It may also serve as a reference for the development and refining of training and exercises, but shall not supersede Service policy. The principal audience for this multi-Service publication is for CBRN responders who plan and conduct CBRN CM operations in domestic, foreign, or theater operational environments, to include military installations. Department of Defense (DOD) personnel responding to a CBRN incident may be responsible for CBRN CM and/or crisis planning and may be required to execute plans across the conflict spectrum. This publication provides a reference for planning, resourcing, and executing CBRN CM in support of domestic or foreign agencies responding to a CBRN incident. This multi-Service publication incorporates the CM guidance and framework identified in JP 3-40 and JP 3-41. The previous multi-Service tactics, techniques, and procedures (MTTP) also discussed the CBRN aspects of CM as it related to the Federal Response Plan, which was the current guidance at that time. This MTTP provides information on the National Response Framework (NRF), which replaced the National Response Plan (now obsolete) in 2008. The NRF aligns federal coordination structures, capabilities, and resources into a unified, all-discipline, and all-hazards approach to domestic incident management. This manual now complies with the NRF, as appropriate. This publication is designed for use at the tactical level, but has implications at the operational and strategic level for CBRN CM operations supporting strategic objectives. The document will support command and staff planning in preparing for

and conducting CBRN CM operations. This manual focuses on DOD support to domestic or foreign CBRN CM operations and a companion reference, TM 3-11.42/MCWP 3-38.1/NTP 3-11.36/AFTTP 3-2.83 addresses the CBRN defense response on a DOD installation. The National Incident Management System (NIMS) is a comprehensive approach to all aspects of incident management, regardless of size, complexity, or cause. The guidance for NIMS was published by the Department of Homeland Security (DHS) in March 2004, and the guidance continues to be refined and updated by the NIMS Integration Center. One of the six primary elements of NIMS is the use of a standardized command and management system for incident scene operations, the Incident Command System (ICS); and for supporting operations centers, the Multiagency Coordination System. In addition, NIMS prescribes specific standards regarding all aspects of preparedness, including planning, training, certification, equipment, and information systems. DOD guidance embraces NIMS, and this manual adopts NIMS when applicable. This manual also incorporates updated information concerning mass casualty decontamination (MCD) operations that was not previously available. Specific tactics, techniques, and procedures (TTP) are included in the appendixes. This manual incorporates the joint doctrine elements from JP 3-11, JP 3-40, and JP 3-41 for conducting CBRN CM (foreign and domestic), including planning, preparation, response, and recovery considerations. During operations, this publication is subordinate to current joint publications addressing this topic.

The Dictionary of Military Terms Defense 2009-07-27 This is the comprehensive, standardized dictionary of military and associated terminology compiled and used by the Department of Defense. Divided into sections, The Dictionary of Military Terms contains all definitions approved for DoD and the North Atlantic Treaty Organization (NATO) use, as well as a complete listing of commonly used abbreviations and acronyms.

Joint Publication (JP) 3-0 DOD 2018-05-15 This revised edition of Joint Publication 3-0, Joint Operations, reflects the current guidance for conducting joint activities across the range of military operations and is the basis for US

participation in multinational operations where the US has not ratified specific doctrine or procedures. This keystone publication forms the core of joint warfighting doctrine and establishes the framework for our forces' ability to fight as a joint team. Often called the "linchpin" of the joint doctrine publication hierarchy, the overarching constructs and principles contained in this publication provide a common perspective from which to plan and execute joint operations independently or in cooperation with our multinational partners, other US Government departments and agencies, and international and nongovernmental organizations.

FM 3-11.21 Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Consequence Management Operations U S Army 2021-03-17 This multiservice publication is designed for chemical, biological, radiological, and nuclear (CBRN) responders who plan and conduct CBRN consequence management (CM) operations in domestic, foreign, or theater operational environments, to include military installations. Department of Defense (DOD) personnel responding to a CBRN incident may be responsible for CBRN CM and/or crisis planning and may be required to execute plans across the conflict spectrum. This publication provides a reference for planning, resourcing, and executing CBRN CM in support of domestic or foreign agencies responding to a CBRN incident. Specific tactics, techniques, and procedures (TTP) are included in the appendixes. This manual incorporates the joint doctrine elements from Joint Publication (JP) 3-40, Joint Doctrine for Combating Weapons of Mass Destruction; JP 3-41, Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives Consequence Management; and JP 3-11, Joint Doctrine for Operations in Nuclear, Biological, and Chemical Environments, for conducting CBRN CM (foreign and domestic), including planning, preparation, response, and recovery considerations. During operations, this publication is subordinate to current JPs addressing this topic.

Chemical, Biological, Radiological, and Nuclear Operations Department of the Army Headquarters 2021-12-03 This book, issued by the Department of the Army Headquarters, gives an overview of Chemical, Biological, Radiological, and Nuclear Operations or CBRN Operations. It tells about the structures of the operations, their organization, capabilities, training. Also, the book touches upon the topic of domestic and international CBRN response, staff and staff training, and the considerations of warfighting.

Fm 3-11.21 Mcrp 3-37.2c Nttp 3-11.24 Afttp (I) 3-2.37 Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Consequence Management Operations April 2008 United States Department of Defense 2012-05-03 Scope This multiservice publication is designed for chemical, biological, radiological, and nuclear (CBRN) responders who plan and conduct CBRN consequence management (CM) operations in domestic, foreign, or theater operational environments, to include military installations. Department of Defense (DOD) personnel responding to a CBRN incident may be responsible for CBRN CM and/or crisis planning and may be required to execute plans across the conflict spectrum. This publication provides a reference for planning, resourcing, and executing CBRN CM in support of domestic or foreign agencies responding to a CBRN incident. Specific tactics, techniques, and procedures (TTP) are included in the appendixes. This manual incorporates the joint doctrine elements from Joint Publication (JP) 3-40, Joint Doctrine for Combating Weapons of Mass Destruction; JP 3-41, Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives Consequence Management; and JP 3-11, Joint Doctrine for Operations in Nuclear, Biological, and Chemical Environments, for conducting CBRN CM (foreign and domestic), including planning, preparation, response, and recovery considerations. During operations, this publication is subordinate to current JPs addressing this topic. Purpose The purpose of this publication is to provide commanders, staffs, key agencies, and military members with a key reference for planning and

conducting CBRN CM. It provides the tools for CBRN responders to effectively manage the consequences of a CBRN incident. It also may serve as a reference for development and refining of training and exercises, but shall not supersede Service policy. Application This publication is designed for use at the tactical level, but has implications at the operational and strategic level for CBRN CM operations supporting strategic objectives. The document will support command and staff planning in preparing for and conducting CBRN CM operations. This manual focuses on DOD support to domestic or foreign CBRN CM operations and a companion reference, Multiservice Tactics, Techniques, and Procedures for Installation Chemical, Biological, Radiological, and Nuclear Defense, addresses the CBRN defense response on a DOD installation. This publication applies to the Active Army, the Army National Guard (ARNG)/Army National Guard of the United States (ARNGUS), the United States Army Reserve (USAR) unless otherwise stated and to the USMC.

Field Manual FM 3-11 MCWP 3-37. 1 NWP 3-11 AFTTP 3-2. 42 Multi-Service Doctrine for Chemical, Biological, Radiological, and Nuclear Operations July 2011 Us Army

2012-06-03 SCOPEThis publication provides tactical-level commanders and staffs with keystone doctrine for operations to prevent, counter, defend, and mitigate the entire range of chemical, biological, radiological, and nuclear (CBRN) threats, hazards, and effects—including support to combating weapons of mass destruction (CWMD) activities in all operational environments. It addresses operational concepts, principles, fundamentals, planning,

operational considerations, and training and support functions. PURPOSEThe purpose of this publication is to guide tactical commanders and staffs while they are conducting operations to shape the CBRN threat and hazard, facilitate the larger joint force mission, and serve military and national strategy. This includes two important objectives: • To enhance mission effectiveness by preparing personnel, equipment, and facilities to react to, survive, and recover from hazard conditions. • To prevent, counter, defend, and mitigate to enable deployed forces to continue mission-critical operations under CBRN hazard conditions. This publication serves as a foundation for developing multi-Service and Service-specific manuals, standing operating procedures, and response standards and for refining existing training support packages, mission training plans, training center and unit exercises, and Service school curricula. It drives the examination of organizations and materiel developments applicable to the military support of CBRN operations. At a minimum, this manual— • Serves as the overarching and integrating doctrinal bridge to all supporting CBRN multi-Service tactics, techniques, and procedures (MTTP) publications and their application in support of CWMD at the tactical level. • Provides a link between CBRN operations multi-Service doctrine and the appropriate joint doctrine, namely JP 3-11, JP 3-40, and JP 3-41. • Provides a reference summary of relevant strategic and operational guidance for CWMD contained within national security and national military policy, strategy, and treaties. • Introduces and summarizes the challenges associated with global CBRN threats and hazards.
