POWER7 and POWER7+ Optimization and Tuning Guide Brian Hall 2013-03-04 This IBM® Redbooks® publication provides advice and technical information about optimizing and tuning application code to run on systems that are based on the IBM POWER7® and POWER7+™ processors. This advice is drawn from application optimization efforts across many different types of code that runs under the IBM AIX® and Linux operating systems, focusing on the more pervasive performance opportunities that are identified, and how to capitalize on them. The technical information was developed by a set of domain experts at IBM. The focus of this book is to gather the right technical information, and lay out simple guidance for optimizing code performance on the IBM POWER7 and POWER7+ systems that run the AIX or Linux operating systems. This book contains a large amount of straightforward performance optimization that can be performed with minimal effort and without previous experience or in-depth knowledge. This optimization work

can: Improve the performance of the application that is being optimized for the POWER7 system Carry over improvements to systems that are based on related processor chips Improve performance on other platforms The audience of this book is those personnel who are responsible for performing migration and implementation activities on IBM POWER7-based servers, which includes system administrators, system architects, network administrators, information architects, and database administrators (DBAs).

IBM Tivoli Directory Server for z/OS Karan Singh 2011-07-07 This IBM® Redbooks® publication examines the IBM Tivoli® Directory Server for z/OS®. IBM Tivoli Directory Server is a powerful Lightweight Directory Access Protocol (LDAP) infrastructure that provides a foundation for deploying comprehensive identity management applications and advanced software architectures. This publication provides an introduction to the IBM Tivoli Directory Server for z/OS that provides a brief summary of its features and an examination of the possible deployment topologies. It discusses planning a deployment of IBM Tivoli Directory Server for z/OS, which includes prerequisites, planning considerations, and data stores, and provides a brief overview of the configuration process. Additional chapters provide a detailed discussion of the IBM Tivoli Directory Server for z/OS

architecture that examines the supported back ends, discusses in what scenarios they are best used, and provides usage examples for each back end. The discussion of schemas breaks down the schema and provides guidance on extending it. A broad discussion of authentication, authorization, and security examines the various access protections, bind mechanisms, and transport security available with IBM Tivoli Directory Server for z/OS. This chapter also provides an examination of the new Password Policy feature. Basic and advanced replication topologies are also covered. A discussion on plug-ins provides details on the various types of plug-ins, the plug-in architecture, and creating a plug-in, and provides an example plug-in. Integration of IBM Tivoli Directory Server for z/OS into the IBM Workload Manager environment is also covered. This publication also provides detailed information about the configuration of IBM Tivoli Directory Server for z/OS. It discusses deploying IBM Tivoli Directory Server for z/OS on a single system, with examples of configuring the available back ends. Configuration examples are also provided for deploying the server in a Sysplex, and for both basic and advanced replication topologies. Finally it provides guidance on monitoring and debugging IBM Tivoli Directory Server for z/OS.

Introducing Microsoft Power BI Alberto Ferrari 2016-07-07 This is the eBook of the printed book and may not include any media, website access

codes, or print supplements that may come packaged with the bound book. Introducing Microsoft Power BI enables you to evaluate when and how to use Power BI. The Power of Habit Charles Duhigg 2012-02-28 NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. *The Power of Habit* is

an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.”—Financial Times “A flat-out great read.”—David Allen, bestselling author of *Getting Things Done: The Art of Stress-Free Productivity* “You’ll never look at yourself, your organization, or your world quite the same way.”—Daniel H. Pink, bestselling author of *Drive* and *A Whole New Mind* “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change.”—The New York Times Book Review

IBM Power 520 Technical Overview Scott Vetter 2010-04-02 This IBM Redpaper publication is a comprehensive guide covering the IBM Power 520 server, machine type model 8203-E4A. The goal of this paper is to introduce this innovative server that includes IBM System i and IBM System p and new hardware technologies. The major hardware offerings include: - The POWER6 processor, available at frequencies of 4.2 GHz and 4.7 GHz. - Specialized POWER6 DDR2 memory that provides greater bandwidth, capacity, and reliability. - The 1 Gb or 10 Gb Integrated Virtual Ethernet adapter that brings native hardware virtualization to this server. - EnergyScale technology that provides features such as power trending, power-saving, capping of power, and thermal measurement. - PowerVM

virtualization technology. - Mainframe continuous availability brought to the entry server environment. This Redpaper expands the current set of IBM Power System documentation by providing a desktop reference that offers a detailed technical description of the Power 520 system. This Redpaper does not replace the latest marketing materials and tools. It is intended as an additional source of information that, together with existing sources, can be used to enhance your knowledge of IBM server solutions.

Stereo Review 1996-07

Learning SAS by Example Ron Cody 2018-07-03 Learn to program SAS by example! *Learning SAS by Example, A Programmer's Guide, Second Edition*, teaches SAS programming from very basic concepts to more advanced topics. Because most programmers prefer examples rather than reference-type syntax, this book uses short examples to explain each topic. The second edition has brought this classic book on SAS programming up to the latest SAS version, with new chapters that cover topics such as PROC SGPLOT and Perl regular expressions. This book

belongs on the shelf (or e-book reader) of anyone who programs in SAS, from those with little programming experience who want to learn SAS to intermediate and even advanced SAS programmers who want to learn new techniques or identify new ways to accomplish existing tasks. In an instructive and conversational tone, author Ron Cody clearly explains each programming technique and then illustrates it with one or more real-life examples, followed by a detailed description of how the program works. The text is divided into four major sections: Getting Started, DATA Step Processing, Presenting and Summarizing Your Data, and Advanced Topics. Subjects addressed include Reading data from external sources Learning details of DATA step programming Subsetting and combining SAS data sets Understanding SAS functions and working with arrays Creating reports with PROC REPORT and PROC TABULATE Getting started with the SAS macro language Leveraging PROC SQL Generating high-quality graphics Using advanced features of user-defined formats and informats Restructuring SAS data sets Working with multiple observations per subject Getting started with Perl regular expressions You can test your knowledge and hone your skills by solving the problems at the end of each chapter.

Multimedia Presentations on the Go Martha C. Sammons 1996 Make your presentations sparkle by using the latest multimedia technologies and tools. With this handbook you can decide which hardware and software to purchase for portable computer multimedia presentations that use graphics, animation, video, or sound. Covering the full range of technologies, from projection to computer equipment, the book organizes and explains the vast and confusing array of available products. Sammons describes the full range of equipment and related issues, so that both beginners and experts may evaluate their needs and select appropriate solutions. After a general overview of options for portable computers, software, projection, peripherals, portable storage, interfaces, and digitizing, the author lists alphabetically 45 specific topics that provide details on hardware/software categories. Information may include bottom-line summaries, definitions, descriptions of how products work, questions to ask before purchase, pros and cons, sample products, major features to shop for,

Standard and Poors 500 Guide 2013 Standard & Poor's 2012-12-26 The most up-to-date and accurate market intelligence for superior investment

decisions—from the world's premier financial index! Comprehensive and fully updated information—from year-to-year stock values to overall company performance—make this the only resource you need to optimize your investment performance. Standard & Poor's provides the respected Standard & Poor's ratings and stock rankings, advisory services, data guides, and several closely watched and widely reported gauges of stock market activity.

Subsystem and Transaction Monitoring and Tuning with DB2 11 for z/OS

Paolo Bruni 2015-07-29 This IBM® Redbooks® publication discusses in detail the facilities of DB2® for z/OS®, which allow complete monitoring of a DB2 environment. It focuses on the use of the DB2 instrumentation facility component (IFC) to provide monitoring of DB2 data and events and includes suggestions for related tuning. We discuss the collection of statistics for the verification of performance of the various components of the DB2 system and accounting for tracking the behavior of the applications. We have intentionally omitted considerations for query optimization; they are worth a separate document. Use this book to activate the right traces to help you monitor the performance of your DB2 system and to tune the various aspects of subsystem and application

performance.

Putting together a crew * Choosing a camera * New HDV and 24P cameras * Shooting in rough neighborhoods * Interview skills and techniques * 10 ways to lower your budget * Common production forms
THE Journal 1992

The New York Times Guide to New York City 2005 New York Times Guides 2004-12-01 By utilizing the resources of America's premier newspaper, The New York Times Guide is now widely recognized as the most complete and reliable source of information on what to see and do in New York City. Sightseeing: Writers who live and work here tell you what you need to know about all of New York's legendary landmarks, as well as how to get around this great city--from walking tours of famous neighborhoods to hailing a cab or taking the subways. Plus plenty of maps. Restaurants: The most respected reviewers in town--William Grimes and Eric Asimov--tell you where to find the city's best restaurants as they guide you through more than 350 of them, from four-star temples of food to great inexpensive neighborhood eateries. Hotels: Detailed reviews of more than 100 hotels in every price range, including options in every Manhattan neighborhood and the best airport options. No other guide can match this coverage. Shopping: More than 40 pages of information on stores, boutiques and markets, with a special feature on tracking down bargains all over town. There's even an insider's guide to finding antiques.

Theater, Art and Music: Broadway! Lincoln Center! Carnegie Hall! Top Times critics--Ben Brantley on theater, Michael Kimmelman on art, Anna Kisselgoff on dance, and Bernard Holland and Anthony Tommasini on music--tell you all you need to know about New York's rich cultural life. Plus Grace Glueck helps you locate the most important art galleries. Nightlife: Want to find a cozy little bar for a nightcap? Looking for a romantic evening of cabaret or a rowdy night of dancing? You'll find descriptions of hundreds of bars and clubs throughout the city, from elegant hotel haunts to the deepest dives. New York for Children: Laurel Graeber of the Times explores great places for kids--and there are many more than you think. The Neighborhoods: Find out what's going on in Manhattan--Brooklyn, Queens, the Bronx and Staten Island, too--as well as which restaurants are your best bets in each borough.

Handbook of Global Logistics James H. Bookbinder 2012-10-06 Global logistics entails tradeoffs in facility location, distribution networks, the routing and scheduling of deliveries by different modes of travel (e.g., air, water, truck, rail), procurement, and the overall management of international supply chains. In an increasingly global economy, then, logistics has become a very important matter in the success or failure of an organization. It is an integral part of supply chain management that involves not just operations management considerations, but production

engineering and regional science issues as well. As Director of the prestigious Waterloo Management of Integrated Manufacturing Systems Research Group (WATMIMS), which specializes in logistics and manufacturing, Jim Bookbinder is uniquely qualified to edit a handbook on global logistics. He has aligned a set of prominent contributors for this volume. The chapters in the Handbook are organized into discrete sections that examine modes; logistics in particular countries; operations within a free-trade zone; innovative features impacting international logistics; case studies of specific companies; and a look toward the future. Contributors are from the Americas, Europe, and Asia, and they push the state of the art in areas such as trade vs. security; border issues; cabotage within NAFTA; Green logistics corridors within the EU; inland ports; direct-to-store considerations; and all the questions that need to be confronted in any given region. This will certainly appeal to researchers and practitioners alike, and could serve as required or supplementary reading in graduate-level logistics courses as well.

Microelectronic Circuits: Analysis and Design Muhammad H. Rashid
2016-12-18 MICROELECTRONIC CIRCUITS: ANALYSIS AND DESIGN, 3E combines a breadth-first approach to learning electronics with a strong emphasis on design and simulation. This book first introduces the general characteristics of circuits (ICs) in preparation for using circuit design and

analysis techniques. This edition then offers a more detailed study of devices and circuits and how they operate within ICs. More than half of the problems and examples concentrate on design and emphasize how to use computer software tools extensively. The book's proven sequence introduces electronic devices and circuits, then electronic circuits and applications, and finally, digital and analog integrated circuits. Readers learn to apply theory to real-world design problems as they master the skills to test and verify their designs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
