## **The Routledge Handbook of Magazine Research** David Abrahamson

2015-06-05 Scholarly engagement with the magazine form has, in the last two decades, produced a substantial amount of valuable research.

Authored by leading academic authorities in the study of magazines, the chapters in *The Routledge Handbook of Magazine Research* not only create an architecture to organize and archive the developing field of magazine research, but also suggest new avenues of future investigation. ## *The Routledge Companion to American Literary Journalism* William E.

Dow 2019-11-13 Taking a thematic approach, this new companion provides an interdisciplinary, cross-cultural, and international study of American literary journalism. From the work of Frederick Douglass and Walt Whitman to that of Joan Didion and Dorothy Parker, literary journalism is a genre that both reveals and shapes American history and identity. This volume not only calls attention to literary journalism as a distinctive genre but also provides a critical foundation for future

scholarship. It brings together cutting-edge research from literary journalism scholars, examining historical perspectives; themes, venues, and genres across time; theoretical approaches and disciplinary intersections; and new directions for scholarly inquiry. Provoking reconsideration and inquiry, while providing new historical interpretations, this companion recognizes, interacts with, and honors the tradition and legacies of American literary journalism scholarship. Engaging the work of disciplines such as sociology, anthropology, African American studies, gender studies, visual studies, media studies, and American studies, in addition to journalism and literary studies, this book is perfect for students and scholars of those disciplines.

**Reinventing Professionalism** Silvio Waisbord 2013-08-26 Current anxiety about the future of news makes it opportune to revisit the notion of professionalism in journalism. Media expert Silvio Waisbord takes this pressing issue as his theme and argues that “professional journalism” is both a normative and analytical notion. It refers to reporting that observes certain ethical standards as well as to collective efforts by journalists to exercise control over the news. Professionalism should not be narrowly associated with the normative ideal as it historically developed in the West during the past century. Instead, it needs to be approached as a valuable concept to throw into sharp relief how journalists define conditions and rules of work within certain settings. Professionalization is about the specialization of labor and control of occupational practice. These issues are important, particularly amidst the combination of political, technological and economic trends that have profoundly unsettled the foundations of modern journalism. By doing so, they have stimulated the reinvention of professionalism. This engaging and insightful book critically examines the meanings, expectations, and critiques of professional journalism in a global context.

Journalism, Literature, and Modernity Kate Campbell 2000 The authors examine writing in journals across a cultural spectrum--literary journals, organs of culture, magazines, journals promoting modernism, and daily newspapers. Demonstrating a variety of approaches, they explore journalism's importance in relation to gender, modernity and modernism through readings of established writers and critics -- William Hazlitt,

Charles Dickens, Matthew Arnold, Walter Pater, Rebecca West, Virginia Woolf, Laura Riding -- and journals and journalists -- Henry Mayhew, "The Fortnightly Review," Dora Marsden and the "Freewoman/Egoist" sequence. Their studies challenge received ideas of journalism's significance in literary and cultural history, as well as perceptions of modernity and modernism.

**Literary Journalism in British and American Prose** Doug Underwood 2019-05-10 The debate surrounding "fake news" versus "real" news is nothing new. From Jonathan Swift's work as an acerbic, anonymous journal editor-turned-novelist to reporter Mark Twain's hoax stories to Mary Ann Evans' literary reviews written under her pseudonym, George Eliot, famous journalists and literary figures have always mixed fact, imagination and critical commentary to produce memorable works. Contrasting the rival yet complementary traditions of "literary" or "new" journalism in Britain and the U.S., this study explores the credibility of some of the "great" works of English literature.

ePortfolio as Curriculum Kathleen Blake Yancey 2019-04-30 At a moment when the ePortfolio has been recognized as a high impact practice – as a unique site for hosting student integrative learning and as a powerful genre for assessment – this book provides faculty, staff, and administrators with a set of frameworks and models useful for guiding students in designing and creating ePortfolios that clearly communicate their purpose and effectively use the affordances of the medium. In short, this book both illustrates and provides guidance on how to support the development of students' ePortfolio literacy. The ePortfolio curricular models provided in ePortfolio as Curriculum include both those integrated within existing disciplinary courses and those offered through credit-bearing stand-alone courses. In taking up questions focused on what students need to know and do in becoming informed, effective ePortfolio makers, the contributors to this volume – from the standpoint of their course outcomes and institutional contexts – present various approaches to developing an ePortfolio curriculum. Individually and collectively, the chapters explain ways to engage students in understanding the potential purposes, structures, audiences, and designs of ePortfolios; in developing the reflective practices for contextualizing and informing the selection and curation of artifacts; and in creating appropriate focus and coherence. Synthesizing insights from the previous chapters, the concluding chapter identifies six consistent features of an ePortfolio curriculum that support the development of students' ePortfolio literacy. In addition, Kathleen Blake Yancey identifies and defines seven common ePortfolio curricular dimensions that contribute to students' ePortfolio literacy, among them student agency, digital identity, and campus and global citizenship. Not least, she describes new practices emerging from ePortfolio curricula, including new ePortfolio-specific genres; new metaphors used to characterize ePortfolios and their practices; and new issues that the ePortfolio curriculum raises.

**Literature, Journalism and the Avant-Garde** Associate Professor of Literary Studies Elizabeth Kendall 2006-09-27 The author explores the role of journalism in Egypt in effecting and promoting the development of modern Arabic literature from its inception in the mid-nineteenth century to the present day. Remapping the literary scene in Egypt over recent decades, Kendall focuses on the independent, frequently dissident, journals that were the real hotbed of innovative literary activity and which made a lasting impact by propelling Arabic literature into the post-modern era.

**Journalism** Jo A. Cates 2004 A critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism. This edition separates Commercial Databases and Internet Resources.

**Real Life Writings in American Literary Journalism: a Narratological Study**

Gurpreet Kaur 2015-07-24 This referential collection of essays is an important guide to the emergence and development of literary journalism through the centuries. The book begins with the defining of genres, literature and journalism, which blur the lines between them. It also gives an insight into the theories of narratology. Some practitioners included in this book are great American writers like, John Hersey, Truman Capote, Norman Mailer and Don DeLillo. These literary journalists bring to life both major as well as trivial issues of the society. New journalists coalesce all the fictional techniques with the journalistic methods to present a unique and sophisticated style which requires extensive research and even more careful reporting than done in the typical news articles. The book closes with the concluding thoughts followed by list of works cited.

**A Sourcebook of American Literary Journalism** Thomas Bernard Connery

1992 Thirty-five lively and literate profiles by contributing scholars analyze major writers of this literary genre or writers known for a major work in the genre, and Connery provides short pieces for nineteen additional figures. The volume introduction discusses definitions and characteristics of literary journalism, with reference to the patterns of reality depicted. The roots of this "new journalism" are traced, and ideas of the theorists of this genre are explicated. Connery also provides the results of his research--newly-founded primary sources of literary journalism.

**Demarcating the Disciplines** Samuel Weber 1986 Demarcating the Disciplines was first published in 1986. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. With publication of this volume, Glyph begins a new stage in its existence: the move from Johns Hopkins University Press to the University of Minnesota Press is accompanied by a change in focus. In its first incarnation Glyph provided a forum in which established notions of reading, writing, and criticism could be questioned and explored. Since then, the greater currency of such concerns has brought with it new problems and priorities. Setting aside the battles of the past, the new Glyph looks ahead - to confront historical issues and to address the institutional and pedagogical questions emerging from the contemporary critical landscape. Each volume in the new Glyph series is organized around a specific issue. The essays in this first volume explore the relations between the practice of reading and writing and the operations of the institution. Though their approaches differ from one another, the authors of these essays all recognize that the questions of the institution - most notably the university - points toward a series of constraints that define, albeit negatively, the possibilities for change. The contributors: Samuel Weber, Jacques Derrida, Tom Conley, Malcolm Evans, Ruth Salvaggio, Robert Young, Henry Sussman, Peter Middleton, David Punter, and Donald Preziosi.

**Pursuing an Ethic of Empathy in Journalism** Janet Blank-Libra 2016-06-23

This book advances a journalistic theory of empathy, challenging long-held notions about how best to do journalism. Because the institution of journalism has typically equated empathy and compassion with bias, it has been slow to give the intelligence of the emotions a legitimate place in the reporting and writing process. Blank-Libra's work locates the point at which the vast, multidisciplinary research on empathy intersects with the work of the journalist, revealing a reality that has always been so: journalists practice empathy as a way to connect but also as a form of inquiry, as sincere and legitimate in its goals and aspirations as is objectivity.

**Latin American Adventures in Literary Journalism** Pablo Calvi 2019-05-07

The Parrot and the Cannon is a study of the inception and development of Latin American literary journalism and the emergence of an original Latin American literature. Narrative journalism has played a central role in the formation of national identities of the various countries and in the supra-national idea of Latin America as a consolidated region. Beginning in the 1840s and ending in the 1970s, Calvi connects the evolution of literary journalism with the consolidation of Latin America's literary sphere, the professional practice of journalism, the development of the modern mass

media, and the establishment of nation-states in the region.

*The Idea of the Public Sphere* Jostein Gripsrud 2010-10-21 The notion of 'the public sphere' has become increasingly central to theories and studies of democracy, media, and culture over the last few decades. *The Elements of Journalism* Bill Kovach 2001-07-24 In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers – the people who use the news – were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional

journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out – both for those who create and those who consume the news – the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

*Literary Journalism on Trial* Kathy Roberts Forde 2008 In November 1984, Jeffrey Masson filed a libel suit against writer Janet Malcolm and the *New Yorker*, claiming that Malcolm had intentionally misquoted him in a profile she wrote for the magazine about his former career as a Freud scholar and administrator of the Freud archives. Over the next twelve years the case moved up and down the federal judicial ladder, at one point reaching the U.S. Supreme Court, as lawyers and judges wrestled with questions about the representation of "truth" in journalism and, by extension, the limits of First Amendment protections of free speech. Had a successful Freudian scholar actually called himself an "intellectual gigolo" and "the greatest analyst who ever lived"? Or had a respected writer for the *New Yorker* knowingly placed false, self-damning words in her subject's mouth? In *Literary Journalism on Trial*, Kathy Roberts Forde explores the implications of *Masson v. New Yorker* in the context of the history of American journalism. She shows how the case represents a watershed moment in a long debate between the advocates of traditional and literary journalism and explains how it reflects a significant intellectual project of the period: the postmodern critique of objectivity, with its insistence on the instability of language and rejection of unitary truth in human affairs. The case, Forde argues, helped widen the perceived divide between ideas of literary and traditional journalism and forced the resolution of these conflicting conceptions of truth in the constitutional arena of libel law. By embracing traditional journalism's emphasis on fact and objectivity and

rejecting a broader understanding of truth, the Supreme Court turned away from the First Amendment theory articulated in previous rulings, opting to value less the free, uninhibited interchange of ideas necessary to democracy and more the "trustworthiness" of public expression. The Court's decision in this case thus had implications that reached beyond the legal realm to the values and norms expressed in the triangular relationship between American democracy, First Amendment principles, and the press.

Examining changes and continuities in fiction, poetry, drama, and journalism, as well as women's engagement with a range of literary and popular genres, the essays in this volume highlight the range and diversity of women's writing since 1970.

Literary Journalism on Trial Kathy Roberts Forde 2008 In November 1984,

Jeffrey Masson filed a libel suit against writer Janet Malcolm and the New Yorker, claiming that Malcolm had intentionally misquoted him in a profile she wrote for the magazine about his former career as a Freud scholar and administrator of the Freud archives. Fear and Loathing Worldwide Robert Alexander 2018-07-26 For more than 40 years, the radically subjective style of participatory journalism known as Gonzo has been inextricably associated with the American writer Hunter S. Thompson. Around the world, however, other journalists approach unconventional material in risky ways, placing themselves in the middle of off-beat stories, and relate those accounts in the supercharged rhetoric of Gonzo. In some cases, Thompson's influence is apparent, even explicit; in others, writers have crafted their journalistic provocations independently, only later to have that work labelled "Gonzo." In either case, Gonzo journalism has clearly become an international phenomenon. In Fear and Loathing Worldwide, scholars from fourteen countries discuss writers from Europe, the Americas, Africa and Australia, whose work bears unmistakable traces of the mutant Gonzo gene. In each chapter, "Gonzo" emerges as a powerful but unstable signifier, read and practiced with different accents and emphases in the various national, cultural, political, and journalistic contexts in which it has erupted. Whether immersed in the Dutch crack scene, exploring the Polish version of Route 66, following the trail of the 2014 South African General Election, or committing unspeakable acts on the bus to Turku, the writers described in this volume are driven by the same fearless disdain for convention and profound commitment to rattling received opinion with which the "outlaw journalist" Thompson scorched his way into the American consciousness in the 1960s, '70s, and beyond.

**American Exceptionalism, the French Exception, and Digital Media Law**

Lyombe S. Eko 2013-07-10 This volume explores and explains sameness and difference between the United States and France in the matters of freedom of expression on the Internet, the management of the tensions that arise between freedom of expression and the right of privacy of public figures, the comparative role of interest groups in the regulation of Internet content in both countries, the intellectual property implications of the digitization and transfer of journalistic works from print to searchable electronic databases, how courts in the United States and France managed the copyright issues that were triggered by the Google Book Search project, as well as the clash between intellectual property rights and freedom of expression in the area of parody or "gripe" web sites on the Internet. The volume presents American exceptionalism and the

French exception as functionally equivalent logics that lead to different freedom of expression outcomes. This book makes a significant contribution to comparative communication law studies, an area that has not received serious academic interest.

**Literary Journalism in the Twentieth Century** Norman Sims 2008-11-04

This wide-ranging collection of critical essays on literary journalism addresses the shifting border between fiction and non-fiction, literature and journalism. *Literary Journalism in the Twentieth Century* addresses general and historical issues, explores questions of authorial intent and the status of the territory between literature and journalism, and offers a case study of Mary McCarthy's 1953 piece, "Artists in Uniform," a classic of literary journalism. Sims offers a thought-provoking study of the nature of perception and the truth, as well as issues facing journalism today.

**Re-imagining African Identity in the Twenty-First Century** Fetson Anderson Kalua 2020-05-21 The book discusses the idea of African identity in the twenty-first century, calling into question and deconstructing any understanding and representation of the idea of African identity as being based exclusively on the notion of 'Blackness', or the Black race. In countering such an idea of African identity as a flawed notion, the text propounds the idea of intermediality as a new modality of thinking about the importance of embracing the primacy of tolerance for the difference of identity. The notion of intermediality promotes the need for people of all races across the African continent to embrace the idea of difference as the defining feature of African identity so that the geographical locality called Africa is seen as a vibrant, open, and cosmopolitan continent which is accessible to people of all races and identities.

**Literary Journalism and Social Justice** Robert Alexander 2022 This book examines the prominent place a commitment to social justice and equity

has occupied in the global history of literary journalism. With international case studies, it explores and theorizes the way literary journalists have addressed inequality and its consequences in their practice. In the process, this volume focuses on the critical attitude the writers of this genre bring to their stories, the immersive reporting they use to gain detailed and intimate knowledge of their subjects, and the array of innovative rhetorical strategies through which they represent those encounters. The contributors explain how these strategies encourage readers to respond to injustices of class, race, indigeneity, gender, mobility, and access to knowledge. Together, they make the case that,

throughout its history, literary journalism has proven uniquely well adapted to fusing facts with feeling in a way which makes it a compelling force for social change. Robert Alexander is Associate Professor of English at Brock University, Canada. He is the co-editor of *Fear and Loathing Worldwide: Gonzo Journalism Beyond Hunter S. Thompson* (2018). Willa McDonald is Senior Lecturer in Media at Macquarie University, Australia, where she teaches and researches narrative journalism. Her books include *Warrior for Peace: Dorothy Auchterlonie Green* (2009) and the co-edited *The Writers Reader* (2007).
