Elements of Tragedy in Flavian Epic Sophia Papaioannou 2021-01-18 In the light of recent scholarly work on tragic patterns and allusions in Flavian epic, the publication of a volume exclusively dedicated to the relationship between Flavian epic and tragedy is timely. The volume, concentrating on the poetic works of Silius Italicus, Statius and Valerius Flaccus, consists of eight original contributions, two by the editors themselves and a further six by experts on Flavian epic. The volume is preceded by an introduction by the editors and it concludes with an 'Afterword' by Carole E. Newlands. Among key themes analysed are narrative patterns, strategies or type-scenes that appear to derive from tragedy, the Aristotelian notions of hamartia and anagnorisis, human and divine causation, the 'transfer' of individual characters from tragedy to epic, as well as instances of tragic language and imagery. The volume at hand showcases an array of methodological approaches to the question of the presence of tragic elements in epic. Hence, it will be of interest to scholars and students in the area of Classics or Literary Studies focusing on such intergeneric and intertextual connections; it will be also of interest to scholars working on Flavian epic or on the ancient reception of Greek and Roman tragedy.

**This Side of Paradise Illustrated** F Scott Fitzgerald 2021-04-17 This Side of Paradise is the debut novel by F. Scott Fitzgerald, published in 1920. The book examines the lives and morality of post-World War I youth. Its protagonist Amory Blaine is an attractive student at Princeton University who dabbles in literature. The novel explores the theme of love warped by greed and status seeking, and takes its title from a line of Rupert Brooke's poem *Tiare Tahiti*. The novel famously helped F. Scott Fitzgerald gain Zelda Sayre's hand in marriage; its publication was her condition of acceptance.

**Reframing Luchino Visconti** Ivo Blom 2018-03-21 Reframing Luchino Visconti: Film and Art gives new and unique insights into the roots of the visual vocabulary of one of Italy's most reputed film authors. It meticulously researches Visconti's appropriation of European art in his set and costume design, from pictorial citations and the archaeology of the set to the use of portraits and pictorial references in costume design. Yet it also investigates Visconti's cinematography in combination with his *mise-en-scène* in terms of staging, framing, mobile framing, and mirroring. Here not only aesthetic conventions from art but also those from silent and sound cinema have been clearly appropriated by Visconti and his crew. This book gives answers to the question: where does the visual splendour of Visconti's films come from? "This book, apart from showing a long-standing passion and fidelity, gives us one of the most original international researches ever produced on Visconti's work. Through thorough archival research and numerous interviews with people close to Visconti such as his crew members, Ivo Blom's monograph reveals the extraordinary network of iconographic and cultural connections that unite Visconti's work, expose Visconti's

cinematographic signature and link different historic events with crucial moments in Visconti's personal life." - Gian Piero Brunetta (Università di Padova) CLUES is an international scientific series covering research in the field of culture, history and heritage which have been written by, or were performed under the supervision of members of the research institute CLUE+.

Sicily and the Unification of Italy Lucy Riall 1998-03-12 This is the first in-depth analysis of the impact of Italian unification on the hitherto isolated communities of rural Sicily. Traditional explanations of Sicily's instability depict a society trapped by a feudal past. Lucy Riall finds instead that many areas of the island were experiencing a period of rapid modernization, as local government increased their organizational efforts. Beginning with the period prior to the revolution of 1860, Dr Riall shows why successive attempts at political reform failed, and analyses the effects of this failure. She describes the bitter and violent conflict between rival elites and the mounting tide of peasant unrest which together threatened the status quo within the isolated communities of the Sicilian interior. Through an examination of the problems of local government - tax collection, conscription, the organization of policing - and of attempts to suppress peasant disturbances and control crime, she shows that the modernization of the Sicilian countryside both undermined the control of the central government and made the countryside itself more unstable.

Affairs Valentino. Ediz. Speciale Evelyn Zumaya 2015 On August 23rd, 1926, silent film star Rudolph Valentino died unexpectedly at thirty-one-years of age. His sudden death inspired mass hysteria among his fans. His grieving fans were not the only ones to mourn. His business manager and close friend, George Ullman, was appointed executor of Valentino's estate and faced the daunting task of settling the movie star's complex postmortem affairs. In this role, Ullman would find himself a key character in a byzantine tale of betrayal and subterfuge involving moguls, Valentino's relatives and sinister collectors. *Affairs Valentino* is not only the story of George Ullman's affiliation with Valentino, but the revised, documented life story of Rudolph Valentino. *Affairs Valentino* is an expose of the dross written about Valentino, as well as the shady dealings and alliances of collectors and myth mongers. As a result of her discoveries of previously unpublished documents and Ullman's lost personal memoir, Ms. Zumaya challenges the currently held studio-generated version of Rudolph Valentino's personal and professional life. This full color "Special Edition" includes a new Postscript by Ms. Zumaya in which she reveals her latest research, as well as seventy new images including photographs and newly-discovered documents."

**The Translation of Children's Literature** Gillian Lathey 2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field, but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails.... Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's Reader does just this. **Pleasure and Politics at the Court of France** T. Hamilton 2017-03-31

For her commissioning and performance of a French vernacular version of the Arabic Tale of the Thousand and One Nights - recorded in one of the most vivid and sumptuous late thirteenth-century manuscripts extant - as well as for her numerous other commissions, Queen Marie de Brabant (1260-1321) was heralded as a literary and intellectual patron comparable to Alexander the Great and Charlemagne. Nevertheless, classic studies of the late medieval period understate Marie's connection to the contemporary rise of secular interests at the French court. My book, *Pleasure and Politics at the Court of France: the Artistic Patronage of Marie de Brabant (1260-1321)*, by reshaping the inquiry into court patronage, posits that the historical record reveals exciting and important contributions Marie de Brabant made to this burgeoning secular court. This emerging importance of the secular and redefinition of the sacred during these last decades of Capetian rule becomes all the more striking when juxtaposed to the pious tone of the lengthy reign of Louis IX (1214-1270), which had ended just four years before Marie's marriage to his son. That Marie often chose innovative materials and iconographies - that would later in the fourteenth century become the norm - to create these images signals her importance in late medieval patronage. These themes of court, culture, politics, and gender reflect and connect the chronological and methodological organization of my fully drafted manuscript. A substantial revision and expansion of my dissertation, the book examines Marie's commissions from her arrival in Paris in 1274 until her death in 1321 and analyzes the dynamics of her patronage and its impact on other women and men of the royal house.

*Cultural Memory Studies* Astrid Erll 2010-01-01

This handbook represents the interdisciplinary and international field of "cultural memory studies" for the first time in one volume. Articles by renowned international scholars offer readers a unique overview of the key concepts of cultural memory studies. The handbook not only documents current research in an unprecedented way; it also serves as a forum for bringing together approaches from areas as varied as sociology, political sciences, history, theology, literary studies, media studies, philosophy, psychology, and neurosciences. "Cultural memory studies" - as defined in this handbook - came into being at the beginning of the 20th century, with the works of Maurice Halbwachs on *mémoire collective*. In the course of the last two decades this area of research has witnessed a veritable boom in various countries and disciplines. As a consequence, the study of the relation of "culture" and "memory" has diversified into a wide range of approaches. This handbook is based on a broad understanding of "cultural memory" as the interplay of present and past in sociocultural contexts. It presents concepts for the study of individual remembering in a social context, group and family memory, national memory, the various media of memory, and finally the host of emerging transnational lieux de mémoire such as 9/11.

*Europe and Empire* Massimo Cacciari 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

*An Ermine in Czernopol* Gregor Von Rezzori 2012-01-10 An NYRB Classics Original Set just after World War I, *An Ermine in Czernopol* centers on the tragicomic fate of Tildy, an erstwhile officer in the army of the now-defunct Austro-Hungarian Empire, determined to defend the virtue of his cheating sister-in-law at any cost. Rezzori surrounds Tildy with a host of fantastic characters, engaging us in a kaleidoscopic experience of a city where nothing is as it appears—a city of discordant voices, of wild ugliness and heartbreaking disappointment, in which, however, "laughter was everywhere, part of the air we breathed, a crackling tension in the atmosphere, always ready to erupt in showers of sparks or discharge itself in thunderous peals."

*Ficino and Fantasy* Marieke J.E. van den Doel 2021-12-13 Did the Florentine philosopher Marsilio Ficino (1433-99) influence the art of his

time? This book starts with an exploration of Ficino's views on the imagination and discusses whether, how and why these ideas may have been received in Italian Renaissance works of art.

*Men and Bears* AA.VV. 2020-01-23 The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

*The World in Venice* Bronwen Wilson 2005 Positing a dynamic relationship between print culture and social experience, Bronwen Wilson's *The World in Venice* focuses on the printed image during a century of profound transformation. City views, costume illustrations, events, and portraits of locals and foreigners are brought together to show how printmakers responded to an expanding image of the world in Renaissance Venice, and how, in turn, prints influenced the ways in which individuals thought about themselves. Woodcuts and engravings of cities and inhabitants of Europe, and those of distant lands, initiated a sudden and pervasive experience with alterity that redefined the relations of Europeans to the world. By condensing the world into pictures, print enabled a radically novel and vicarious experience of others. Wilson explores the overlapping and evolving relations between space, vision, print, and identity, and engages with current scholarly debates concerning ethnicities, gender and geography, copies and originals, travel, nationhood, fashion, urban life, visuality, and the body. Venice was one of the largest cities in Renaissance Europe, a trading crossroads, and a centre of print. *The World in Venice* shows how Venetian identity came to be envisioned within the growing global context that print constructed for it.

*Ancient Terracottas from South Italy and Sicily in the J. Paul Getty*

*Museum* Maria Lucia Ferruzza 2016-01-25 In the ancient world, terracotta sculpture was ubiquitous. Readily available and economical—unlike stone suitable for carving—clay allowed artisans to craft figures of remarkable variety and expressiveness. Terracottas from South Italy and Sicily attest to the prolific coroplastic workshops that supplied sacred and decorative images for sanctuaries, settlements, and cemeteries. Sixty terracottas are investigated here by noted scholar Maria Lucia Ferruzza, comprising a selection of significant types from the Getty's larger collection—life-size sculptures, statuettes, heads and busts, altars, and decorative appliques. In addition to the comprehensive catalogue entries, the publication includes a guide to the full collection of over one thousand other figurines and molds from the region by Getty curator of antiquities Claire L. Lyons. Reflecting the Getty's commitment to open content, *Ancient Terracottas from South Italy and Sicily in the J. Paul Getty Museum* is available online at [www.getty.edu/publications/terracottas](http://www.getty.edu/publications/terracottas) and may be downloaded free of charge in multiple formats. For readers who wish to have a bound reference copy, this paperback edition has been made available for sale.

*Europe* Gesa zur Nieden 2016-10-31 During the 17th and 18th century

musicians' mobilities and migrations are essential for the European music history and the cultural exchange of music. Adopting viewpoints that reflect different methodological approaches and diversified research cultures, the book presents studies on central scopes, strategies and artistic outcomes of mobile and migratory musicians as well as on the transfer of music. **Post-Metropolitan Territories** Alessandro Balducci 2017-01-20

Processes of multi-scalar regional urbanization are occurring worldwide. Such processes are clearly distinguishable from those of the nineteenth and twentieth centuries due to the shifting concepts of both the city and the metropolis. International literature highlights how what we have historically associated with the idea of cities has long been subjected to consistent reconfiguration, which involves stressing some of the typical features of the idea of "cityness". *Post-Metropolitan Territories: Looking for a New Urbanity* is the product of a research project funded by the Italian Ministry for Education, Universities and Research (MIUR). It constitutes a thorough overview of a country that is one of Europe's most diverse in terms of regional development and performance: Italy. This book brings together case studies of a number of Italian cities and their hinterlands and looks at new forms of urbanization, exploring themes of sustainability, industrialization, de-industrialization, governance, city planning and quality of life. This volume will be of great interest to academics and students who study regional development, economic geography and urban studies, as well as civil servants and policymakers in the field of spatial planning, urban policy, territorial policies and governance.

**The War of the Mice and the Crabs** GIACOMO. LEOPARDI 1976

Volume 164 in the North Carolina Studies in the Romance Languages and Literatures series.

*Dialogues between Media* Paul Ferstl 2021-01-18 Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, *Dialogues between Media*, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse.

"Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.

**The Catcher Was a Spy** Nicholas Dawidoff 2011-11-02 NATIONAL

BESTSELLER Now a major motion picture starring Paul Rudd "A delightful book that recounts one of the strangest episodes in the history of espionage. . . . Relentlessly entertaining."—The New York Times Book Review Moe Berg is the only major-league baseball player whose baseball card is on display at the headquarters of the CIA. For Berg was much more than a third-string catcher who played on several major league teams between 1923 and 1939. Educated at Princeton and the Sorbonne, he as reputed to speak a dozen languages (although it was also said he couldn't hit in any of them) and went on to become an OSS spy in Europe during World War II. As Nicholas Dawidoff follows Berg from his claustrophobic childhood through his glamorous (though equivocal) careers in sports and espionage and into the long, nomadic years during which he lived on the hospitality of such scattered acquaintances as Joe DiMaggio and Albert Einstein, he succeeds not only in establishing where Berg went, but who he was beneath his layers of carefully constructed cover. As engrossing as a novel by John le Carré,

*The Catcher Was a Spy* is a triumphant work of historical and psychological detection.

**Towards a Unified Italy** Salvatore DiMaria 2018-07-18 Since unification in 1860, Italy has remained bitterly divided between the rich North and the underdeveloped South. This book examines the historical, literary, and cultural contexts that have informed and inflamed the debate on the Southern Question for over a century. It brings together analysis of cinema, literature, and newspaper archives to reconsider the myths and stereotypes that both Northerners and Southerners deploy in their narratives. Salvatore DiMaria offers a masterful assessment of the entangled issues that have produced the South's image as impoverished and backwards, such as organized crime, illiteracy, and mass emigration. Documenting the state's largely failed efforts to bring the South into its socio-economic fold, DiMaria also points to the future, arguing that the European Union and globalization are transformative forces that may finally produce a unified Italy.

**From Darkness to Light: Writers in Museums 1798-1898** Katherine

Manthorne 2019 "From Darkness to Light explores from a variety of angles the subject of museum lighting in exhibition spaces in America, Japan, and Western Europe throughout the nineteenth and twentieth centuries. Written by an array of international experts, these collected essays gather perspectives from a diverse range of cultural sensibilities. From sensitive discussions of Tintoretto's unique approach to the play of light and darkness as exhibited in the Scuola Grande di San Rocco in Venice, to the development of museum lighting as part of Japanese artistic self-fashioning, via the story of an epic American painting on tour, museum illumination in the work of Henry James, and lighting alterations at Chatsworth (to name only a few topics) this book is a treasure trove of illuminating contributions. The collection is at once a refreshing insight for the enthusiastic museum-goer, who is brought to an awareness of the exhibit in its immediate environment, and a wide-ranging scholarly compendium for the professional who seeks to proceed in their academic or curatorial work with a more enlightened sense of the lighted space."--Publisher's website.
