Constitutional Review under the UK Human Rights Act Aileen Kavanagh 2009-05-07

Under the Human Rights Act, British courts are for the first time empowered to review primary legislation for compliance with a codified set of fundamental rights. In this book, Aileen Kavanagh argues that the HRA gives judges strong powers of constitutional review, similar to those exercised by the courts under an entrenched Bill of Rights. The aim of the book is to subject the leading case-law under the HRA to critical scrutiny, whilst remaining sensitive to the deeper constitutional, political and theoretical questions which underpin it. Such questions include the idea of judicial deference, the constitutional status of the

HRA, the principle of parliamentary sovereignty and the constitutional division of labour between Parliament and the courts. The book closes with a sustained defence of the legitimacy of constitutional review in a democracy, thus providing a powerful rejoinder to those who are sceptical about judicial power under the HRA.

A Guide for Using Mr. Popper's Penguins in the Classroom Rebecca Paigen 1997

The Church's Guide for Reading Paul Brevard S. Childs 2008 "The Church's Guide for Reading Paul is the final work of a prolific and beloved biblical scholar. Brevard Childs here turns his sharp scholarly eye to the works of the apostle Paul and makes an unusual argument: the New Testament canon's formation was, above all, a hermeneutical exercise in which its anonymous apostles and postapostolic editors collected, preserved,

and theologically shaped the material in order for the evangelical traditions to serve successive generations of Christians."--

The One-on-One Reading and Writing Conference Jennifer Berne 2015 Personal interactions are the single most effective

way for teachers to understand and evaluate their student as learners. Responding specifically to new Common Core State Standards in reading and writing, this book introduces pre- and inservice teachers to a method of one-on-one interaction the authors refer to as the “stretch conference.” This book provides detailed practical advice on the logistics of implementing these conferences during the busy school day, including tips on how and when to schedule conferences and how to successfully manage the classroom during conference time. The authors argue that, rather than using valuable conference time for word-level concerns and editing, teachers should focus on more ambitious goals that will deepen (or “stretch”) students’ skills in comprehension and writing. This resource suggests where conferences fit in with other important pieces of literacy instruction; introduces a

variety of high-quality cues to use during conferences; and shows how conferences can function as formative assessment for reading and writing skills. Book Features: Written by two veteran teacher educators who conduct frequent workshops and professional development with teachers. Helps teachers adjust their instruction for the demands of Common Core Standards, specifically Reading Anchor Standards 1 and 10, and Writing Standards 1-5 and 10. Shows teachers how to schedule individual conferences within typical classroom time constraints. Includes many detailed examples of effective conferences taken from real classrooms. "A roadmap for engaging students in conversations that will change their understanding. Frankly, it's an amazing resource and one that has changed my thinking about classroom instructional time." —From the Foreword by Douglas Fisher, San Diego State University "A

critical opportunity to reflect on our practice, examining whether the content of our conferences is aligned with the rigorous expectations of the Common Core."
