Rising Above Gregory Zuckerman 2016-05-03 Discover inspirational real-life stories of superstar athletes in this collection of sports biographies featuring LeBron James, Stephen Curry, Tim Howard, and more! Team USA goalkeeper Tim Howard was diagnosed with Tourette Syndrome in 6th grade. He went on to become a national treasure after single-handedly keeping America competitive in the 2014 World Cup. Stephen Curry was told he was too small, too weak, and too slow to even receive a scholarship to play college basketball. He

outworked everyone and went on to become MVP of the National Basketball Association. Jim Abbott was born without his right hand, yet he refused to be defined by what he lacked. He went on to pitch a no-hitter in the Major Leagues. Athlete after athlete in this book found discipline, hope, and inspiration on the playing field, rising above their circumstances. Filled with first-hand accounts from stars who exemplify the idea of enduring at all costs, this collection of sports biographies will serve as a must-read source of inspiration for kids and sports fans of all ages. Praise for *Rising Above A Scholastic Teacher* magazine Summer Reading List selection A Milwaukee Journal Sentinel Summer Reading List selection "An easy pitch for middle school sports lovers."--School Library Journal "This collection of mini-bios about athletes who overcame major obstacles packs a powerful message—perseverance and passion pay off. Even non-sports fans will cheer for superstars like LeBron James and Stephen Curry."--Scholastic Teacher "So many of the obstacles that these athletes share are retold using personal interviews and primary source material that young readers will find very relatable. [T]heir stories have morals that are easily transferred to life off the court or the field. The highly relevant message is that no situation is too dire or insurmountable with the right attitude and that young people shouldn't allow setbacks to define them."--Booklist "[O]ften inspiring . . . The underdog stories reveal that dedication and perseverance pay off, as well as that sports can serve as needed outlets and refuges."--Publishers Weekly "I would rate this a 9 1/2 . . . it touch[es] your heart very often with the ways these athletes turn[ed] their lives around."--Colorado Kids

Saban Monte Burke 2015-08-04 Monte Burke profiles head coach of University of Alabama's football team, Nick Saban, perhaps the most enigmatic man in the sport. Health Care Transition Albert C. Hergenroeder 2018-05-03 This comprehensive book thoroughly addresses all aspects of health care transition of adolescents and young adults with chronic illness or disability; and includes the framework, tools and case-based examples needed to develop and evaluate a Health Care Transition (HCT) planning program that can be implemented regardless of a patient's disease or disability. *Health Care Transition: Building a Program for Adolescents and Young Adults with Chronic Illness and Disability* is a uniquely inclusive resource, incorporating youth/young adult, caregiver, and pediatric and adult provider voices and perspectives. Part I of the book opens by defining Health Care Transition, describing the urgent need for comprehensive transition planning, barriers to HCT and then offering a framework for developing and evaluating health care transition programs. Part II focuses on the anatomic and neuro-chemical changes that occur in the brain during adolescence and young adulthood, and how they affect function and behavior. Part III covers the perspectives of important participants in the HCT

transition process – youth and young adults, caregivers, and both pediatric and adult providers. Each chapter in Part IV addresses a unique aspect of developing HCT programs. Part V explores various examples of successful transition from the perspective of five key participants in the transition process - patients, caregivers, pediatric providers, adult providers and third party payers. Related financial matters are covered in part VI, while Part VII explores special issues such as HCT and the medical home, international perspectives, and potential legal issues. Models of HCT programs are presented in Part VIII, utilizing an example case study. Representing perspectives from over 75 authors and more than 100 medical centers in North America and Europe, *Health Care Transition: Building a Program for Adolescents and Young Adults with Chronic Illness and Disability* is an ideal resource for any clinician, policy maker, caregiver, or hospitalist working with youth in transition.

Handbook of Sports Medicine and Science, Volleyball Jonathan C. Reeser 2008-04-15 This addition to the Handbook series is presented in five sections. The first sections covers basic and applied science, including biomechanics, the physiologic demands of volleyball, conditioning and nutrition. The second section looks at the role of the medical professional in volleyball,

covering team physicians, pre-participation examination, medical equipment at courtside and emergency planning. The third section looks at injuries - including prevention, epidemiology, upper and lower limb injuries and rehabilitation. The next section looks at those volleyball players who require special consideration: the young, the disabled, and the elite, as well as gender issues. Finally, section five looks at performance enhancement.

An Illustrated History of Health and Fitness, from Pre-History to our Post-Modern World Roy J. Shephard 2014-11-27 This book examines the health/fitness interaction in an historical context. Beginning in primitive hunter-gatherer communities, where survival required adequate physical activity, it goes on to consider changes in health and physical activity at subsequent stages in the evolution of "civilization." It focuses on the health impacts of a growing understanding of medicine and physiology, and the emergence of a middle-class with the time and money to choose between active and passive leisure pursuits. The book reflects on urbanization and industrialization in relation to the need for public health measures, and the ever-diminishing physical demands of the work-place. It then evaluates the attitudes of prelates, politicians, philosophers and teachers at each stage of the process. Finally, the book explores professional and governmental initiatives to increase public involvement in active leisure through various school, worksite, recreational and sports programmes.

The Cube People Christian McPherson 2015-07-15 Christian McPherson's debut novel *The Cube People* pokes fun at government cubicle culture through the life and times of a struggling computer programmer/novelist wannabe. McPherson surrounds his protagonist, Colin MacDonald, with a cast of screwball characters while he toils away at his government job, struggles with fertility and dreams of becoming a published writer. Recycled air, bad lighting and bizarre environmental office policies by day; scheduled love-making sessions and rejection letters by night, push MacDonald to try to write his way

out of his cyclical life story. Part tragedy, part comedy—with a bit of horror thrown in for fun—McPherson cooks up a boiling plot and a memorable anti-hero.

Regulation of Gender - Discriminatory Advertising in the Nordic Countries Kosunen, Niina 2017-06-14 Due to the media's normative power to reflect daily life and to shape our understanding of gender, media plays a vital role in constructing – or deconstructing – gender equality. In modern societies, the advertising industry plays a major role in the media landscape. In the Nordic countries gender discriminatory advertising has been on the public agenda since the 1970s and 1980s, the time when gender equality legislation was adopted. However, the Nordic countries have chosen different ways of combating and regulating gender discriminatory advertising. This report presents results of a survey on how gender-discriminatory advertising is regulated in the Nordic countries. The survey was conducted as part of a project on gender equality in the media carried out during the Finnish presidency of the Nordic Council of Ministers in 2016

Wilt, 1962 Gary M. Pomerantz 2010-06-02 On the night of March 2, 1962, in Hershey, Pennsylvania, right up the street from the chocolate factory, Wilt Chamberlain, a young and striking athlete celebrated as the Big Dipper, scored one hundred points in a game against the New York Knickerbockers. As historic and revolutionary as the achievement was, it remains shrouded in myth. The game was not televised; no New York sportswriters showed up; and a fourteen-year-old local boy ran onto the court when Chamberlain scored his hundredth point, shook his hand, and then ran off with the basketball. In telling the story of this remarkable night, author Gary M. Pomerantz brings to life a lost world of American

sports. In 1962, the National Basketball Association, stepchild to the college game, was searching for its identity. Its teams were mostly white, the number of black players limited by an unspoken quota. Games were played in drafty, half-filled arenas, and the players traveled on buses and trains, telling tall tales, playing cards, and sometimes reading Joyce. Into this scene stepped the unprecedented Wilt Chamberlain: strong and quick-witted, voluble and enigmatic, a seven-footer who played with a colossal will and a dancer's grace. That strength, will, grace, and mystery were never more in focus than on March 2, 1962. Pomerantz tracked down Knicks and Philadelphia Warriors, fans, journalists, team officials, other NBA stars of the era, and basketball historians, conducting more than 250 interviews in all, to recreate in painstaking detail the game that announced the Dipper's greatness. He brings us to Hershey, Pennsylvania, a sweet-seeming model of the gentle, homogeneous small-town America that was fast becoming anachronistic. We see the fans and players, alternately fascinated and confused by Wilt, drawn anxiously into the spectacle. Pomerantz portrays the other legendary figures in this story: the Warriors' elegant coach Frank McGuire; the beloved, if ruffled, team owner Eddie Gottlieb; and the irreverent p.a. announcer Dave "the Zink" Zinkoff, who handed out free salamis courtside. At the heart of the book is the self-made Chamberlain, a romantic cosmopolitan who owned a nightclub in Harlem and shrugged off segregation with a bebop cool but harbored every slight deep in his psyche. March 2, 1962, presented the awesome sight of Wilt Chamberlain imposing himself on a world that would diminish him. Wilt, 1962 is not only the dramatic story of a singular basketball game but a meditation on small

towns, midcentury America, and one of the most intriguing figures in the pantheon of sports heroes. Also available as a Random House AudioBook

Impacts of the Fukushima Nuclear Accident on Fish and Fishing Grounds Kaoru Nakata 2015-07-10 This book presents the results from the Japanese Fisheries Research Agency's 3-year intensive monitoring of radionuclides in a variety of fish, plankton, benthos, and their living environments after the Fukushima Daiichi Nuclear Power Plant (FNPP) accident in March 2011. The book reveals the dynamics of contamination processes in marine and freshwater fish, mediated by the contamination of water, sediments, and food organisms; it also clarifies the mechanisms by which large variations in the level of contamination occurs among individual fish. Most importantly, the book includes a large amount of original measurement data collected in situ and for the first time assesses diffusion of radiocesium across the Pacific using both in situ data and a numerical simulation model. Also introduced are several new approaches to evaluate the impact of the release of radionuclides, including the measurement of radiation emission from an otolith section to identify the main period of contamination in fish. The FNPP accident represents a rare instance where the environmental radioactivity level was elevated steeply through atmospheric fallout and direct discharge of radioactive water into the sea over a short period of

time. Replete with precise scientific data, this book will serve as an important resource for research in fields such as fishery science, oceanography, ecology, and environmentology, and also as a solid basis for protecting fisheries from damage resulting from harmful rumors among the general public.

Paris Letters Janice MacLeod 2014-02-04 A New York Times bestseller Finding love and freedom in a pen, a paintbrush...and Paris How much money does it take to quit your job? Exhausted and on the verge of burnout, Janice poses this questions to herself as she doodles on a notepad at her desk. Surprisingly, the answer isn't as daunting as she expected. With a little math and a lot of determination, Janice cuts back, saves up, and buys herself two years of freedom in Europe. A few days into her stop in Paris, Janice meets Christophe, the cute butcher down the street-who doesn't speak English. Through a combination of sign language and franglais, they embark on a whirlwind Paris romance. She soon realizes that she can never return to the world of twelve-hour workdays and greasy corporate lingo. But her dwindling savings force her to find a way to fund her dreams again. So Janice turns to her three loves-words, art, and Christophe-to figure out a way to make her happily-ever-after in Paris last forever.

A People's History of the United States Howard Zinn 2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the

working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

21st Century Sports Sascha L. Schmidt 2020-09-12 This book outlines the effects that technology-induced change will have on sport within the next five to ten years, and provides food for thought concerning what lies further ahead. Presented as a collection of essays, the authors are leading academics from renowned institutions such as Massachusetts Institute of Technology, Queensland University of Technology, and the University of Cambridge, and practitioners with extensive technological expertise. In their essays, the authors examine the impacts of emerging technologies like artificial intelligence, the Internet of Things, and robotics on sports and assess how they will change sport itself, consumer behavior, and existing business models. The book will help athletes, entrepreneurs, and innovators working in the sports industry to spot trendsetting technologies, gain deeper insights into how they will affect their activities, and identify the most effective responses to stay ahead of the competition

both on and off the pitch.

Fox and McDonald's Introduction to Fluid Mechanics

Robert W. Fox 2020-06-30 Through ten editions, Fox and McDonald's Introduction to Fluid Mechanics has helped students understand the physical concepts, basic principles, and analysis methods of fluid mechanics. This market-leading textbook provides a balanced, systematic approach to mastering critical concepts with the proven Fox-McDonald solution methodology. In-depth yet accessible chapters present governing equations, clearly state assumptions, and relate mathematical results to corresponding physical behavior. Emphasis is placed on the use of control volumes to support a practical, theoretically-inclusive problem-solving approach to the subject. Each comprehensive chapter includes numerous, easy-to-follow examples that illustrate good solution technique and explain challenging points. A broad range of carefully selected topics describe how to apply the governing equations to various problems, and explain physical concepts to enable students to model real-world fluid flow situations. Topics include flow measurement, dimensional analysis and similitude, flow in pipes, ducts, and open channels, fluid machinery, and more. To enhance student learning, the book incorporates numerous pedagogical features including chapter summaries and learning objectives, end-of-chapter problems, useful equations, and design and open-ended problems that encourage students to apply fluid mechanics principles to the

design of devices and systems.

The Center Cannot Hold Elyn R. Saks 2007-08-14 A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has

ongoing major episodes of the illness. The Center Cannot Hold is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the

paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.
