end in Auschwitz. Determined to go down fighting, he sabotaged Nazi industrial work, risked his life to alleviate the suffering of the Jewish prisoners and aided a partisan group planning a mass break-out. This shocking true story sheds new light on the operations at the camp, exposes a hierarchy of prisoner treatment by the SS and presents the largely unknown story of the military POWs held there.

Surviving the Angel of Death Eva Mozes Kor
2020-10-13 Eva Mozes Kor was just ten years old when she arrived in Auschwitz. While her parents and two older sisters were taken to the gas chambers, she and her twin, Miriam, were herded into the care of the man known as the Angel of Death, Dr. Josef Mengele. Subjected to sadistic medical

experiments, she was forced to fight daily for her and her twin's survival. In this incredible true story written for young adults, readers learn of a child's endurance and survival in the face of truly extraordinary evil and Eva's recovery and her controversial but often misunderstood decision to publicly forgive the Nazis. Readers will learn of how she triumphed over unfathomable pain and suffering into a life-long work for peace, human rights, and Holocaust education. The new edition provides interesting details and important context to the events related in the original story. A new Afterword by publisher Peggy Porter Tierney offers a richer portrayal of Eva as a person, the truth behind the controversies, and the eventful last ten

No Hormones, No Fear
Trisha Posner 2007-12-18
Five years ago, at the age of forty-six, Trisha Posner was surprised to learn from a blood test that she was in full-blown menopause. Her gynecologist urged her to begin hormones immediately, but, mindful of her family's history of breast cancer, she refused. No Hormones, No Fear is the story of Posner's search for an alternative to the AMA's sanctioned regimen of hormone replacement therapy. In a wonderfully engaging personal account, she reveals how she mastered menopause naturally, by developing a unique program involving exercise, diet, nutrition, and herbs. She not only successfully alleviated her symptoms but actually significantly improved her health and

quality of life. Now updated with the latest major medical studies, which raise troubling questions about estrogen replacement for millions of women, No Hormones, No Fear is an indispensable primer for women confronting the thicket of conflicting information about whether or not to choose hormones during menopause. Trisha Posner, through her own inspiring story, shows that today's modern women finally have choices and can empower themselves by taking control of their health and lives.

portrayal of the Holocaust as seen through the eyes of criminal and victim alike. Adam, known as "the last Jew of Schäßburg," recounts with disturbing clarity his imprisonment at the infamous Auschwitz concentration camp. Through Adam's fictional narrative and excerpts of actual testimony from the Frankfurt Auschwitz Trial of 1963–65, we come to learn of the true-life story of Dr. Victor Capesius, who, despite strong friendships with Jews before the war, quickly aided in and profited from their tragedy once the Nazis came to power. Interspersed with historical research and the author's face-to-face interviews with survivors, the novel follows Capesius from his assignment as the "sorter" of new arrivals at Auschwitz—deciding

who will go directly to the gas chamber and who will be used for labor—through his life of lavish wealth after the war to his arrest and eventual trial. Schlesak's seamless incorporation of factual data and testimony—woven into Adam's dreamlike remembrance of a world turned upside down—makes *The Druggist of Auschwitz* a vital and unique addition to our understanding of the Holocaust.

Hell's Cartel Diarmuid Jeffreys 2010-01-05 The remarkable rise and shameful fall of one of the twentieth century's greatest conglomerates. graphics supplier Agfa, the plastics giant BASF—continue to play key roles in the global market. IG Farben itself, however, is remembered mostly for its infamous connections to the Nazi Party and its complicity in the atrocities of the Holocaust. After the war, Farben's leaders were tried for crimes that included mass murder and exploitation of slave labor. In *Hell's Cartel*, Diarmuid Jeffreys presents the first comprehensive account of IG Farben's rise and fall, tracing the enterprise from its nineteenth-century origins, when the discovery of synthetic dyes gave rise to a vibrant new industry, through the upheavals of the Great War era, and on to the company's fateful role in World War II. Drawing on extensive research and

original interviews, *Hell's Cartel* sheds new light on the codependence of industry and the Third Reich, and offers a timely warning against the dangerous merger of politics and the pursuit of profit. *All the Horrors of War*

cattle car, "If you get out, maybe you can tell the story! Who else will tell it?" These are the true, insider stories of victims, told in their own words. They include the experiences of teenagers who saw their parents and siblings sent to the gas chambers; of starving children beaten for trying to steal a morsel of food; of people who saw their friends commit suicide to save themselves from the daily agony they endured. The recollections are from the start of the war—the home invasions, the Gestapo busts, and the ghettos—as well as the daily hell of the concentration camps and what actually happened inside. Six million Jews were killed in the Holocaust. This hefty collection of stories was compiled by award-winning author Anthony

S. Pitch, who worked with sources such as the United States Holocaust Memorial Museum to get survivors' stories compiled together and to supplement them with images from the war. These memories must be told and held onto so what happened is documented; so the lives of those who perished are not forgotten—so history does not repeat itself.

Corporate Crime in the Pharmaceutical Industry (Routledge Revivals)

John Braithwaite
2013-10-08 First published in 1984, this book examines corporate crime in the pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar crime. Written in

the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and internationally.

1945 and its 60,000 prisoners, how the Army dealt with the unprecedented horror that existed in the camp, how the surviving prisoners were rescued, how the inmates were evacuated, how the Royal Army Medical Corps established the world's largest hospital to care for the many thousands of sick and emaciated ex-inmates, how the survivors were rehabilitated and cared for, how they were repatriated to their own countries, why many thousand refused to return 'home' and the eventual establishment of the Belsen Displaced Persons camp, the largest DP camp in Germany. The author of this book was a senior British Army officer who participated in the liberation of the Camp, who was in charge of evacuating the ex-prisoners to the vast

A Detail of History 2015

Do the Birds Still Sing in Hell ? Horace Greasley 2014-06-10

Horace 'Jim' Greasley was twenty years of age in the spring of 1939 when Adolf Hitler invaded Czechoslovakia and latterly Poland. There had been whispers and murmurs of discontent from certain quarters and the British government began to prepare for the inevitable war. After seven weeks training with the 2nd/5th Battalion Leicester, he found himself facing the might of the German army

in a muddy field south of Cherbourg, in Northern France, with just thirty rounds of ammunition in his weapon pouch. Horace's war didn't last long. He was taken prisoner on 25th May 1940 and forced to endure a ten week march across France and Belgium en - route to Holland. Horace survived...barely...food was scarce; he took nourishment from dandelion leaves, small insects and occasionally a secret food package from a sympathetic villager, and drank rain water from ditches. Many of his fellow comrades were not so fortunate. Falling by the side of the road through sheer exhaustion and malnourishment meant a bullet through the back of the head and the corpse left to rot. After a three day train journey without food and water, Horace found

himself incarcerated in a prison camp in Poland. It was there he embarked on an incredible love affair with a German girl interpreting for his captors. He experienced the sweet taste of freedom each time he escaped to see her, yet incredibly he made his way back into the camp each time, sometimes two, three times every week. Horace broke out of the camp then crept back in again under the cover of darkness after his natural urges were fulfilled. He brought food back to his fellow prisoners to supplement their meagre rations. He broke out of the camp over two hundred times and towards the end of the war even managed to bring radio parts back in. The BBC news would be delivered daily to over 3,000 prisoners. This is an incredible tale of one man's

adversity and defiance of the German nation.

In Broad Daylight

Patrick Desbois

2018-01-23 An award-winning author details how more than two million Jews were murdered by the Nazis and their allies—for all the world to see and helped by neighbors. After ten years of research and interviews with more than 5,700 neighbors to the murdered Jews and visits to more than 2,700 extermination sites, many of them unmarked, one key finding: Genocide does not happen without the neighbors. The neighbors are instrumental to the crime. In his National Jewish Book Award-winning book *The Holocaust by Bullets*, Father Patrick Desbois documented for the first time the murder of 1.5 million Jews in Ukraine during World War II.

Nearly a decade of further work by his team, drawing on interviews with neighbors of the Jews, wartime records, and the application of modern forensic practices to long-hidden grave sites. has resulted in stunning new findings about the extent and nature of the genocide. In *Broad Daylight* documents mass killings in seven countries formerly part of the Soviet Union that were invaded by Nazi Germany. It shows how these murders followed a template, or script, which included a timetable that was duplicated from place to place. Far from being kept secret, the killings were done in broad daylight, before witnesses. Often, they were treated as public spectacle. The Nazis deliberately involved the local inhabitants in the mechanics of

death—whether it was to cook for the killers, to dig or cover the graves, to witness their Jewish neighbors being marched off, or to take part in the slaughter. They availed themselves of local people and the structures of Soviet life in order to make the Eastern Holocaust happen. Narrating in lucid, powerful prose that has the immediacy of a crime report, Father Desbois assembles a chilling account of how, concretely, these events took place in village after village, from the selection of the date to the twenty-four-hour period in which the mass murders unfolded. Today, such groups as ISIS put into practice the Nazis' lessons on making genocide efficient. The book includes an historical introduction by Andrej Umansky, research fellow at the

"Father Patrick Desbois has done the heroic work of documenting, literally down to the bullet, how genocide was perpetrated by the Nazis, and how it was tolerated, even facilitated, by civilians. By doing so, he has not only given us insight into what happened, but what will continue to happen if we, as civilians, are not vigilant. This book should be required reading." –Jonathan Safran Foer, bestselling and award-winning author of *Everything Is Illuminated* and member of the US Holocaust Commission "Were it not for Father Desbois and his team, most of us would still think the Holocaust was carried

When you think about the holocaust, what is the first thing that comes to mind? Are your thoughts about the millions of innocent Jewish people who died needlessly because of a narrow minded political party? Maybe your first thoughts are of an extremely short many with a wicked heart, named Adolf Hitler. It also conjures images of those responsible, sharp-dressed chisel-faced officers of the Nazi SS, presiding over this atrocity, this nightmare they created, the nightmare they

condoned, and the horrible acts that they carried out while wearing stony expressions of cold detachment. There was no human compassion in their actions. There was no question of decency or shame, only a touch of defiance and the empty indifference of self-righteous apathy, combined with a complete lack of respect for human dignity, humanity, or human life. There was no human compassion, whatsoever. It was as if the Nazis suddenly forgot that Jewish people were human beings.

By Chance Alone Max Eisen 2016-04-19 WINNER of CBC Canada Reads In the tradition of Elie Wiesel's Night and Primo Levi's Survival in Auschwitz comes a bestselling new memoir by Canadian survivor Finalist for the 2017 RBC Taylor Prize More

than 70 years after the Nazi camps were liberated by the Allies, a new Canadian Holocaust memoir details the rural Hungarian deportations to Auschwitz-Birkenau, back-breaking slave labour in Auschwitz I, the infamous "death march" in January 1945, the painful aftermath of liberation, a journey of physical and psychological healing. Tibor "Max" Eisen was born in Moldava, Czechoslovakia into an Orthodox Jewish family. He had an extended family of sixty members, and he lived in a family compound with his parents, his two younger brothers, his baby sister, his paternal grandparents and his uncle and aunt. In the spring of 1944--five and a half years after his region had been annexed to Hungary and the morning after the family's yearly Passover

Seder--gendarmes forcibly removed Eisen and his family from their home. They were brought to a brickyard and eventually loaded onto crowded cattle cars bound for Auschwitz-Birkenau. At fifteen years of age, Eisen survived the selection process and he was inducted into the camp as a slave labourer. One day, Eisen received a terrible blow from an SS guard. Severely injured, he was dumped at the hospital where a Polish political prisoner and physician, Tadeusz Orzeszko, operated on him. Despite his significant injury, Orzeszko saved Eisen from certain death in the gas chambers by giving him a job as a cleaner in the operating room. After his liberation and new trials in Communist Czechoslovakia, Eisen immigrated to Canada in

1949, where he has dedicated the last twenty-two years of his life to educating others about the Holocaust across Canada and around the world. The author will be donating a portion of his royalties from this book to institutions promoting tolerance and understanding.

Standard) as we are introduced to brilliant scientists, incorruptible government regulators, and brave whistleblowers facing off against company executives often blinded by greed. A business that profits from treating ills can create far deadlier problems than it cures. Addictive products are part of the industry's DNA, from the days when corner drugstores sold morphine, heroin, and cocaine, to the past two decades of dangerously overprescribed opioids. Pharma also uncovers the real story of the Sacklers, the family that became one of America's wealthiest from the success of OxyContin, their blockbuster narcotic painkiller at the center of the opioid crisis. Relying on thousands of pages of government and corporate archives,

dozens of hours of interviews with insiders, and previously classified FBI files, Posner exposes the secrets of the Sacklers' rise to power—revelations that have long been buried under a byzantine web of interlocking companies with ever-changing names and hidden owners. The unexpected twists and turns of the Sackler family saga are told against the startling chronicle of a powerful industry that sits at the intersection of public health and profits. “Explosively, even addictively, readable” (Booklist, starred review), Pharma reveals how and why American drug companies have put earnings ahead of patients.

meticulous, courageous and path-breaking scholarship"(Literary Review); and "absorbing and thoroughly gripping... deserves a lasting place among histories of the war." (The Sunday Telegraph), *Hunting Evil* is the first complete and definitive account of how the Nazis escaped and were pursued and captured -- or managed to live long lives as fugitives. At the end of the Second World War, an estimated 30,000 Nazi war criminals fled from justice, including some of the highest ranking members of the Nazi Party. Many of them have names that resonate deeply in twentieth-century history -- Eichmann, Mengele, Martin Bormann, and Klaus Barbie -- not just for the monstrosity of their crimes, but also because of the shadowy nature of their post-war existence, holed up in

the depths of Latin America, always one step ahead of their pursuers. Aided and abetted by prominent people throughout Europe, they hid in foreboding castles high in the Austrian alps, and were taken in by shady Argentine secret agents. The attempts to bring them to justice are no less dramatic, featuring vengeful Holocaust survivors, inept politicians, and daring plots to kidnap or assassinate the fugitives. In this exhaustively researched and compellingly written work of World War II history and investigative reporting, journalist and novelist Guy Walters gives a comprehensive account of one of the most shocking and important aspects of the war: how the most notorious Nazi war criminals escaped justice, how they were

pursued, captured or able to remain free until their natural deaths and how the Nazis were assisted while they were on the run by "helpers" ranging from a Vatican bishop to a British camel doctor, and even members of Western intelligence services. Based on all new interviews with Nazi hunters and former Nazis and intelligence agents, travels along the actual escape routes, and archival research in Germany, Britain, the United States, Austria, and Italy, *Hunting Evil* authoritatively debunks much of what has previously been understood about Nazis and Nazi hunters in the post war era, including myths about the alleged "Spider" and "Odessa" escape networks and the surprising truth about the world's most legendary Nazi hunter Simon Wiesenthal. From

its haunting chronicle of the monstrous mass murders the Nazis perpetrated and the murky details of their postwar existence to the challenges of hunting them down, *Hunting Evil* is a monumental work of nonfiction written with the pacing and intrigue of a thriller.

Mengele: Unmasking the "Angel of Death" David G. Marwell 2020-01-28 A gripping biography of the infamous Nazi doctor, from a former Justice Department official tasked with uncovering his fate. Perhaps the most

notorious war criminal of all time, Josef Mengele was the embodiment of bloodless efficiency and passionate devotion to a grotesque worldview. Aided by the role he has assumed in works of popular culture, Mengele has come to symbolize the Holocaust itself as well as the failure of justice that allowed countless Nazi murderers and their accomplices to escape justice. Whether as the demonic doctor who directed mass killings or the elusive fugitive who escaped capture, Mengele has loomed so large that even with conclusive proof, many refused to believe that he had died. As chief of investigative research at the Justice Department's Office of Special Investigations in the 1980s, David G. Marwell worked on the Mengele case,

interviewing his victims, visiting the scenes of his crimes, and ultimately holding his bones in his hands. Drawing on his own experience as well as new scholarship and sources, Marwell examines in scrupulous detail Mengele's life and career. He chronicles Mengele's university studies, which led to two PhDs and a promising career as a scientist; his wartime service both in frontline combat and at Auschwitz, where his "selections" sent innumerable innocents to their deaths and his "scientific" pursuits—including his studies of twins and eye color—traumatized or killed countless more; and his postwar flight from Europe and refuge in South America. Mengele describes the international search for the Nazi doctor in 1985

that ended in a cemetery in Sao Paulo, Brazil, and the dogged forensic investigation that produced overwhelming evidence that Mengele had died—but failed to convince those who, arguably, most wanted him dead. This is the riveting story of science without limits, escape without freedom, and resolution without justice.

God's Bankers Gerald Posner 2015-02-03 A deeply reported, New York Times bestselling exposé of the money and the clerics-turned-financiers at the heart of the Vatican—the world's biggest, most powerful religious

institution—from an acclaimed journalist with “exhaustive research techniques” (The New York Times). From a master chronicler of legal and financial misconduct, a magnificent investigation nine years in the making, *God's Bankers* traces the political intrigue of the Catholic Church in “a meticulous work that cracks wide open the Vatican's legendary, enabling secrecy” (Kirkus Reviews). Decidedly not about faith, belief in God, or religious doctrine, this book is about the church's accumulation of wealth and its byzantine financial entanglements across the world. Told through 200 years of prelates, bishops, cardinals, and the Popes who oversee it all, Gerald Posner uncovers an eyebrow-raising account of money and

power in one of the world's most influential organizations. God's Bankers has it all: a revelatory and astounding saga marked by poisoned business titans, murdered prosecutors, and mysterious deaths written off as suicides; a carnival of characters from Popes and cardinals, financiers and mobsters, kings and prime ministers; and a set of moral and political circumstances that clarify not only the church's aims and ambitions, but reflect the larger tensions of more recent history. And Posner even looks to the future to surmise if Pope Francis can succeed where all his predecessors failed: to overcome the resistance to change in the Vatican's Machiavellian inner court and to rein in the excesses of its seemingly uncontrollable

financial quagmire. "As exciting as a mystery thriller" (Providence Journal), this book reveals with extraordinary precision how the Vatican has evolved from a foundation of faith to a corporation of extreme wealth and power.

brehtaking journey of nine extraordinary men from Budapest to the New World, what they experienced along their dangerous route, and how they changed America and the world. This is the unknown chapter of World War II: the tale of nine men who grew up in Budapest's brief Golden Age, then, driven from Hungary by anti-Semitism, fled to the West, especially to the United States, and changed the world. These nine men, each celebrated for individual achievements, were part of a unique group who grew up in a time and place that will never come again. Four helped usher in the nuclear age and the computer, two were major movie myth-makers, two were immortal photographers, and one was a seminal writer. The Great Escape is a groundbreaking, poignant

American story and an important untold chapter of the tumultuous last century.

Irma Grese - the Holocaust Wilbur

Chindler 2016-04-18 The Incredible Life Of Irma Grese And The Holocaust: The Intriguing Life And History Of The Blonde Beast The two World Wars were standing testimony of man's willingness to degenerate into cannibalistic beings; any attempt to justify a war is a useless one, if only because we cannot account for the millions of innocent people who lose their lives in the process. It isn't just the soldiers who die; from political prisoners to the innocent women and children who are not at the forefront are also killed mercilessly, especially when territory is annexed. Ironically, over the years, we have become so used to the idea of such

mass destruction that it has all turned into simple statistics and numbers that vaguely float on the pages of some newspaper somewhere. The two World Wars in particular have gone down in history books as facts and figures, and we often find it hard to associate a single person with the atrocities that are committed in the name of national fervour. In this book, I have described the particulars of the Second World War and the rise of Nazism, from the very singular perspective of Irma Grese, who was one of the perpetrators of the violence. It is my hope that by dissecting the life of a single individual, especially that of an executioner's and not an innocent victim's, we can understand the true

horrors of war and racial discrimination that destroys so many thousands of families and lives.

Last Stop Auschwitz Eddy de Wind 2020-01-09 THE SUNDAY TIMES AND INTERNATIONAL BESTSELLER 'The ultimate Holocaust testimony.' HEATHER MORRIS, author of *The Tattooist of Auschwitz* and *Cilka's Journey* Afterword by JOHN BOYNE, author of *The Boy in the Striped Pyjamas*

_____ Eddy de Wind, a Dutch doctor and psychiatrist, was shipped to Auschwitz with his wife Friedel, whom he had met and married at the Westerbork labour camp in the Netherlands. At Auschwitz, they made it through the brutal selection process and were put to work. Each day, each hour became a battle for survival. For Eddy, this meant negotiating with the

volatile guards in the medical barracks. For Friedel, it meant avoiding the Nazis' barbaric medical experiments. As the end of the war approached and the Russian Army drew closer, the last Nazis fled, taking many prisoners with them, including Friedel. Eddy hid under a pile of old clothes and stayed behind. Finding a notebook and pencil, he began to write with furious energy about his experiences. Last Stop Auschwitz is an extraordinary account of life as a prisoner, a near real-time record of the daily struggle to survive but also of the flickering moments of joy Eddy and Friedel found in each other. Documenting the best and the worst of humanity, it is a unique and timeless story that reminds us of what we as humans are capable of,

but that there is hope, even in Hell.

WHAT
READERS ARE SAYING:
'It's heart-wrenching, but there are pockets of resistance, rays of hope that shine through.'

profession and why you should care," Kim Ankenbruck, a 34 year pharmacy veteran, points out the danger you face every time you get a prescription or medication order filled. While pharmacists are incredibly detail oriented and excellent multitaskers by nature, the current workplace is chaotic and stressful due to the increased demands of upper management, coupled with staff cuts and the promotion of non pharmacist personnel over the pharmacists. At the end of the book, Kim provides contact information and sample letters you can send to both government agencies and the CEO's of the various chain pharmacies. The letters bring up many of the issues experienced by patients, as well as holding the powers that be accountable for their

part in these shortcomings and demanding that they clean up their act. This book is a call to action for pharmacists and patients to stand up and push for positive change in the healthcare system, as well as an informative behind the scenes look at the profession and business of pharmacy.

The Death Marches Daniel Blatman 2011-05-03

Blatman writes about the end phase of the German concentration camp system when the Nazis, realizing that they were losing the war, were faced with the enormous problem of what to do with the people being held captive. As these camps were being evacuated, the collapse of the front in Poland and the advance of the Red Army generated frantic waves of flight and the evacuation of millions of civilians

and soldiers. The panicky retreat created conditions under which prisoners were murdered in horrific death marches. Gas chambers in faraway camps were no longer in use, and now the slaughters took place on the very doorsteps of ordinary German civilians' homes and in the streets German and Austrian towns. Unknown numbers of ordinary civilians across the dissolving Reich, fearing for the fate of their families and property, participated in the lethal eruption of violence. The book is divided into two sections. The first part provides an detailed overview of the camp system and a thorough chronological treatment of the camp evacuations during the winter of 1944-45 and the spring of 1945. The second part is a case study of the

atrocities in the German town of Gardelegen where over 1000 prisoners were murdered, along with about 400 in the surrounding villages. This event serves as a focused example of the breakdown of the evacuation plans at the end of the war.

The Grand Turk John Freely 2009-02-28 Sultan Mehmet II, the Grand Turk, known to his countrymen as Fatih, 'the Conqueror', and to much of Europe as 'the present Terror of the World', was once the most feared and powerful ruler in the world. The seventh of his line to rule the Ottoman Turks, Mehmet was barely 21 when he conquered Byzantine Constantinople, which became Istanbul and the capital of his mighty empire. Mehmet reigned for 30 years, during which time his armies extended the borders of

his empire halfway across Asia Minor and as far into Europe as Hungary and Italy. Three popes called for crusades against him as Christian Europe came face to face with a new Muslim empire. Mehmet himself was an enigmatic figure. Revered by the Turks and seen as a cruel and brutal tyrant by the west, he was a brilliant military leader but also a renaissance prince who had in his court Persian and Turkish poets, Arab and Greek astronomers and Italian scholars and artists. In this, the first biography of Mehmet for 30 years, John Freely vividly brings to life the world in which Mehmet lived and illuminates the man behind the myths, a figure who dominated both East and West from his palace above the Golden Horn and the Bosphorus, where an

inscription still hails him as, 'Sultan of the two seas, shadow of God in the two worlds, God's servant between the two horizons, hero of the water and the land, conqueror of the stronghold of Constantinople.'

Architect of Death at Auschwitz John W.

Primomo 2020-07-24

Rudolf Hoss has been called the greatest mass murderer in history. As the longest-serving commandant of Auschwitz, he supervised the killing of more than 1.1 million people. Unlike many of his Nazi colleagues who denied either knowing about or participating in the Holocaust, Hoss remorselessly admitted, both at the Nuremberg war crimes trial and in his memoirs, that he sent hundreds of thousands of Jews to their deaths in the gas chambers, frankly

describing the killing process. His "innovations" included the use of hydrogen cyanide (derived from the pesticide Zyklon B) in the camp's gas chambers. Hoss lent his name to the 1944 operation that gassed 430,000 Hungarian Jews in 56 days, exceeding the capacity of the Auschwitz's crematoria. This biography follows Hoss throughout his life, from his childhood through his Nazi command and eventual reckoning at Nuremberg. Using historical records and Hoss' autobiography, it explores the life and mind of one of history's most notorious and sadistic individuals.

Photographer Luca Crippa
2021-09-07 The Nazis asked him to swear allegiance to Hitler, betraying his country, his friends, and everything he believed

in. He refused. Poland, 1939. Professional photographer Wilhelm Brasse is deported to Auschwitz-Birkenau and finds himself in a deadly race to survive, assigned to work as the camp's intake photographer and take "identity pictures" of prisoners as they arrive by the trainload. Brasse soon discovers his photography skills are in demand from Nazi guards as well, who ask him to take personal portraits for them to send to their families and girlfriends. Behind the camera, Brasse is safe from the terrible fate that so many of his fellow prisoners meet. But over the course of five years, the horrifying scenes his lens capture, including inhumane medical "experiments" led by Josef Mengele, change Brasse forever. Based on the true story of

Wilhelm Brasse, The Auschwitz Photographer is a stark black-and-white reminder of the horrors of the Holocaust. This gripping work of World War II narrative nonfiction takes readers behind the barbed wire fences of the world's most feared concentration camp, bringing Brasse's story to life as he clicks the shutter button thousands of times before ultimately joining the Resistance, defying the Nazis, and defiantly setting down his camera for good.

Jack and Rochelle Jack Sutin 2015-07-14 The memoir of a man and woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance,

and Jack stepped on Rochelle's shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpce) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple's careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle's story, told in their own voices through extensive interviews with their

Death in the City of Light David King

2011-09-20 The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of

the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the "People's Doctor," known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded

with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot's brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

Too Long Ago: David Pietrusza 2020-11-11 A sardonic expedition into a small-town ethnic childhood and post-World War II America—and how to survive Rust Belt hard times. At last . . . a memoir finally worthy of comparison to the uproariously funny fiction of the great Jean Shepherd, author

and narrator of the beloved *A Christmas Story*. Only . . . it's all true. Sometimes . . . sadly true. Award-winning presidential historian and baseball scholar David Pietrusza's witty and wise tale of growing up in the 1950s and 60s, *Too Long Ago* is no *Leave It to Beaver* or *Father Knows Best* episode. It's a unique glimpse into an unjustly ignored and forgotten immigrant experience—Eastern European and devoutly pre-Vatican II Catholic. A tale of a tight-knit Polish community, transplanted from tiny, impoverished Hapsburg-ruled villages to a hardscrabble, hardworking, hard-drinking Upstate New York mill town. It's how the first rust corroded the Rust Belt, sidetracking dreams but not hope. It's a lively saga of secrets and hard
